SUBJECT MATTER JURISDICTION AND VENUE

1 1. This Court has subject matter jurisdiction over the claims in this
2 action which relate to copyright, trademark and federal unfair competition laws
3 pursuant to the provisions of 15 U.S.C. §1121, 28 U.S.C. §1338 and 28 U.S.C.
4 §1331.
5

6 2. This Court has supplemental jurisdiction over the claims in this
7 complaint which arise under the statutory and common law of the State of
8 California pursuant to 28 U.S.C. §1367(a), since the state law claims are so related
9 to the federal claims that they form part of the same case or controversy and derive
10 from a common nucleus of operative facts.

11 3. Venue is proper in this Court pursuant to 28 U.S.C. §1391(b).
12 Software that is the subject of this complaint was mailed to customers in Los
13 Angeles County. The infringing products which are the subject of this litigation
14 were distributed and/or offered for distribution in the Central District of
15 California, and the claims alleged in this action arose in the Central District of
16 California.

PARTIES

17
18 4. Plaintiff Symantec Corporation ("Plaintiff" or "Symantec") is, and at
19 all times herein mentioned was, a corporation organized and existing under the
20 laws of the State of Delaware, and qualified to do business in California.

21 5. Plaintiff is informed and believes and on that basis alleges that
22 defendant James Reno ("Reno") is an individual with his principal residence and
23 his principal business address in Ohio, who sometimes conducts business and
24 personal affairs under numerous fictitious names, as described in this Complaint.
25 Plaintiff may seek to amend this complaint to add additional such fictitious names
26 when they are ascertained.

27 6. Plaintiff is informed and believes and on that basis alleges that
28 defendant Sam Jain ("Jain") is an individual with his principal residence and his

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 principal business address in Ohio, who sometimes conducts business and
2 personal affairs under numerous fictitious names, as described in this Complaint.
3 Plaintiff may seek to amend this complaint to add additional such fictitious names
4 when they are ascertained.

5 7. Plaintiff is informed and believes and on that basis alleges that
6 defendant Bytehosting Internet Services, LLC ("Bytehosting"), is a limited
7 liability company organized and existing under the laws of the state of Ohio, with
8 principal business offices in Amelia, Ohio and mailing address at PO Box 104,
9 Amelia, Ohio 45102.

10 8. Plaintiff is informed and believes and on that basis alleges that
11 defendant Bytehosting also uses a mailing address at PO Box 820, Amelia, Ohio
12 45102.

13 9. Plaintiff is informed and believes and on that basis alleges that
14 defendant Karen Sena ("Sena") is an individual with principal residence and
15 principal business address in Ohio, and is a "member" or a "manager" of
16 Bytehosting as those terms are defined under Ohio limited liability company law.

17 10. Plaintiff is informed and believes and on that basis alleges that
18 defendant Reno founded Bytehosting and has managed and controlled Bytehosting
19 at all times relevant to this Complaint.

20 11. Plaintiff is informed and believes and on that basis alleges that
21 defendant Promotional Management Consulting Incorporated is an entity of
22 unknown organizational form controlled by one or more of the other defendants.

23 12. Plaintiff is informed and believes and on that basis alleges that
24 defendant Innovative Marketing, Inc. is an entity of unknown organizational form
25 controlled by one or more of the other defendants.

26 13. Plaintiff is unaware of the true names and capacities of the defendants
27 sued herein under the fictitious names DOE 1 - DOE 50, inclusive. Plaintiff will
28 seek leave to amend to state the true names and capacities of such defendants

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 when such information is ascertained.

2 14. Plaintiff is informed and believes and on that basis alleges that at all
3 times material herein, each of the defendants was the agent, employee, and/or
4 representative of each of the remaining defendants, and, in doing the things
5 alleged herein, was acting within the scope of such agency, employment, or
6 representation.

7 15. Plaintiff is informed and believes and on that basis alleges that the
8 defendants have sometimes acted as alleged in this Complaint using one or more
9 of the following fictitious names:

10 Discount Bob

11 discountbob.com

12 bytehosting.com

13 Innovative Marketing, Inc.

14 Professional Management Consulting Incorporated

15 PMMCI

16 pmmci.com

17 WinAntiVirus

18 winantivirus.com

19 16. Plaintiff is informed and believes and on that basis alleges that
20 defendants have sometimes acted as alleged in this Complaint using one or more
21 fictitious names in addition to those set forth above. Plaintiff will amend this
22 Complaint as appropriate when such additional fictitious names are ascertained.

23 17. Plaintiff is informed and believes and on that basis alleges that
24 defendant Reno, in his capacity as the founder of defendant Bytehosting, is
25 personally aware of, and has authorized, approved, ratified, participated in, and
26 instigated the wrongful conduct set forth in this complaint.

27 18. Plaintiff is informed and believes and on that basis alleges that
28 defendant Jain is personally aware of, and has authorized, approved, ratified,

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 participated in, and instigated the wrongful conduct set forth in this complaint.

2 19. Plaintiff is informed and believes and on that basis alleges that
3 defendant Sena is personally aware of, and has authorized, approved, ratified,
4 participated in, and instigated the wrongful conduct set forth in this complaint.

5 20. Plaintiff is informed and believes and on that basis alleges that there
6 exists, and at all times relevant hereto there existed, a unity of interest and
7 ownership between defendants Reno, Jain, Sena and Bytehosting such that any
8 individuality and separateness of Bytehosting ceased or never existed, and
9 Bytehosting is the alter ego of Reno, Jain, and Sena.

10 21. Plaintiff is informed and believes and on that basis alleges that
11 defendants Reno, Jain, and Sena created and continue to use Bytehosting to shield
12 them from liability for the actions complained of in this complaint.

13 22. Plaintiff is informed and believes and on that basis alleges that Reno,
14 Jain, and Sena have and continue to: commingle and fail to segregate
15 Bytehosting's funds and other assets from their own; treat assets nominally
16 belonging to Bytehosting as their own; and share a unity of ownership, control and
17 management with Bytehosting.

18 23. Plaintiff is informed and believes and on that basis alleges that
19 Bytehosting has inadequate capitalization and functions as a mere shell and/or
20 conduit for the business ventures of Reno, Jain, and Sena such that any activities
21 attributed to the former are in fact activities of the latter, and that Reno, Jain, and
22 Sena use Bytehosting as a subterfuge designed to avoid liability for the wrongful
23 conduct attributable to themselves as alleged throughout this complaint.

24 24. Adherence to the fiction of the existence of defendant Bytehosting as
25 an entity separate and distinct from defendants Reno, Jain, and Sena would permit
26 an abuse of the limited liability company privilege and would promote injustice
27 and fraud in that it would enable defendants Reno, Jain, and Sena to continue to
28 commit the actions complained of in this complaint while shielding themselves

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 from liability by use of the insolvent Bytehosting.

2 **CENTRAL ALLEGATIONS OF WRONGDOING**

3 25. Plaintiff manufactures and distributes software for personal
4 computers.

5 26. Plaintiff has produced several different versions of its Norton
6 SystemWorks products, including: Norton SystemWorks 2002 (hereinafter NSW
7 2002), Norton SystemWorks 2002 Professional Edition (hereinafter NSW 2002
8 Pro), Norton SystemWorks 2003 (hereinafter NSW 2003), Norton SystemWorks
9 2003 Professional Edition (hereinafter NSW 2003 Pro), Norton SystemWorks
10 2004 (hereinafter NSW 2004), and Norton SystemWorks 2004 Professional
11 Edition (hereinafter NSW 2004 Pro). The Norton SystemWorks Products are
12 sometimes referred to collectively herein as "NSW." Each NSW product consists
13 of a suite of several popular and useful software programs, including but not
14 limited to the following:

- 15 • NSW 2002 includes Symantec's Norton AntiVirus 2002, Norton
16 Utilities, Norton CleanSweep, Roxio's GoBack (which Symantec
17 acquired from Roxio in 2003; before that time, Roxio owned the
18 copyright and had granted Symantec rights to use, including in
19 Symantec's NSW 2002, NSW 2002 Pro, NSW 2003 and NSW 2003
20 Pro).
 - 21 • NSW 2002 Pro includes software included in NSW 2002, plus
22 Symantec's Norton Ghost and revised and new full text material in
23 the computer programs.
 - 24 • NSW 2003 is an updated version of NSW 2002 and includes revised
25 and new full text material in the computer programs.
 - 26 • NSW 2003 Pro is an updated version of NSW 2002 Pro and includes
27 revised and new full text material in the computer programs.
- 28

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

- 1 • NSW 2004 is an updated version of NSW 2003 and includes revised
- 2 and new full text material in the computer programs.
- 3 • NSW 2004 Pro is an updated version of NSW 2003 Pro and includes
- 4 revised and new full text material in the computer programs.

5 27. Plaintiff also manufactures stand-alone versions of some of the
6 software products bundled together in its NSW product. One popular product is
7 Norton AntiVirus. Plaintiff has manufactured Norton AntiVirus 2003 and Norton
8 AntiVirus 2003 Professional Edition for distribution and sale as separate products
9 with their own disks and distinctive retail packaging.

10 28. For the 2004 product lines, Plaintiff added certain security features
11 designed in part to make it more difficult for counterfeiters to sell, and for
12 consumers to make use of, unauthorized copies of Plaintiff's software. These
13 security features included enhanced procedures to prevent registration or use of
14 counterfeit NSW and/or Norton AntiVirus software.

15 29. During 2002, Plaintiff became aware that the defendants were
16 marketing and selling products using Plaintiff's trademarks, representing that such
17 products were produced by Plaintiff, when in fact the defendants were marketing
18 and selling products neither manufactured by nor authorized by Plaintiff,
19 representing them as software manufactured by Plaintiff.

20 30. During 2002, Plaintiff began receiving complaints about defendants'
21 advertising of purported Symantec and/or Norton brand products. The complaints
22 included reports that the defendants were selling electronic downloadable copies
23 as well as copies on Compact Discs ("CDs"). The complaints came from potential
24 and/or existing customers of Plaintiff, hereinafter sometimes referred to as
25 "Consumers."

“Pop-Up” Advertising

31. Some Consumers notified Plaintiff that defendants were soliciting orders for purported Norton AntiVirus and Norton SystemWorks products via “pop-up” advertising as described below.

32. Some Consumers notified Plaintiff that a “pop-up” window had appeared on their computer, purportedly notifying them that their Symantec software was about to expire and needed to be renewed in order to continue functioning.

33. Plaintiff is informed and believes and on that basis alleges that those Consumers desired and intended to continue using Plaintiff’s software for, among other things, purchasing (or acquiring) periodic updates to the virus-protection software built into NSW and Norton AntiVirus packages. Without those updates, those Consumers would not be protected by Plaintiff’s NSW and/or Norton AntiVirus updates against new computer viruses and/or other forms of intrusion into their computer operating systems, memory and/or data stored in electronic form on their computers.

34. Plaintiff is informed and believes and on that basis alleges that some Consumers received such “pop-up” notifications very close to one year after they had purchased and/or registered Norton or Symantec software, and thus those Consumers believed the notifications were generated by Plaintiff’s software or by Plaintiff.

35. Plaintiff is informed and believes and on that basis alleges that defendants caused such “pop-up” advertisements to appear on consumers’ computer monitors. The “pop-up” advertisements sometimes advertise software represented to be manufactured or produced by Plaintiff.

36. Plaintiff is informed and believes and on that basis alleges that the “pop-up” advertisements are designed to cause Consumers to visit one or more internet web sites owned or controlled by defendants for the purpose of inducing

1 the Consumers to purchase software represented to be manufactured or produced
 2 by Plaintiff and bearing unauthorized copies of Plaintiff's trademarks, logos, and
 3 copyrighted works, but which, in fact, has not been produced by Plaintiff and is
 4 counterfeit.

5 37. Plaintiff is informed and believes and on that basis alleges that the
 6 "pop-up" advertisements are designed to confuse Consumers and to cause them to
 7 visit one or more internet web sites owned or controlled by defendants for the
 8 purpose of inducing them to purchase software manufactured, marketed,
 9 distributed and/or sold by defendants. The advertisements use descriptions and
 10 depictions deceptively similar to Plaintiff's products, and the software delivered
 11 by the defendants is designed to be deceptively similar to software produced by
 12 Plaintiff.

13 38. Plaintiff is informed and believes and on that basis alleges that the
 14 "pop-up" advertisements are designed in a manner calculated to frighten
 15 Consumers by, among other things, falsely indicating that the Consumer's
 16 computer has been attacked by a computer virus or other harmful computer
 17 program and the Consumer's data stored on the computer is in danger of being, or
 18 is about to be, destroyed. Consumers complained to Plaintiff about these
 19 frightening advertisements, thinking they originated from Plaintiff.

20 **Unauthorized Redirection or "Hijacking"**

21 39. Consumers notified Plaintiff that their attempts to visit one of
 22 Plaintiff's web pages to order genuine updates or genuine products manufactured
 23 and/or produced by Plaintiff were intercepted and redirected to defendants' web
 24 pages.

25 40. Plaintiff is informed and believes and on that basis alleges that
 26 defendants intercept or redirect Consumers' attempts to access legitimate
 27 Symantec internet web sites and cause unsuspecting Consumers to end up at one
 28 or more of defendants' internet web sites. At those web sites, deceptively

1 designed to give Consumers the impression they are accessing a legitimate
2 Symantec web site, Consumers are induced to purchase the defendants' products,
3 which defendants deceptively portray, design, and market to mislead Consumers
4 into believing they are purchasing genuine Symantec products when, instead,
5 defendants sell counterfeit, unauthorized Symantec products or their own products
6 intentionally designed to look like Symantec products.

7 **Unsolicited Commercial E-Mail ("Spam")**

8 41. Plaintiff is informed and believes and on that basis alleges that
9 defendants and/or defendants' agents sent unsolicited commercial e-mail
10 advertisements ("spam") to thousands of unsuspecting Consumers, advertising
11 software represented to be Norton and Symantec products at extremely low prices.
12 These "spam" e-mails included links to defendants' internet web sites.

13 42. Plaintiff received numerous complaints from Consumers who had
14 received "spam" from defendants and/or that linked to defendants' web sites.

15 43. Plaintiff is informed and believes and on that basis alleges that these
16 "spam" e-mails were sent in a manner constituting violations of Calif. Bus. & Prof.
17 Code §§ 17529-19529.9 and 17538.45, as well as violations of 15 U.S.C. §§ 7701
18 *et seq.*

19 **Infringing and Unfair Internet Web Sites**

20 44. Plaintiff is informed and believes and on that basis alleges that
21 defendants advertise merchandise for sale, including software falsely represented
22 to be produced by Plaintiff, on multiple internet web sites. In fact, the products
23 offered for sale are counterfeit Symantec products or defendants' own products
24 intentionally designed to look like Symantec products.

25 **Deceptive Domain Names**

26 45. Plaintiff is informed and believes and on that basis alleges that
27 defendants have registered, caused to be registered, and/or use domain names
28 similar to Plaintiff's trademarks, so that Consumers who misspell the name

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 “Symantec” or “Norton” are directed or redirected to one of the defendants’
 2 internet web sites where defendants market counterfeit Symantec software and/or
 3 software deceptively similar to Plaintiff’s software products, in order to induce
 4 Consumers to purchase from defendants instead of purchasing from Plaintiff.

5 46. Plaintiff is informed and believes and on that basis alleges that
 6 defendants have linked their internet web sites to domains named similar to
 7 Plaintiff’s trademarks, so that Consumers who mistakenly access one of those sites
 8 are redirected to one of the defendants’ internet web sites where defendants market
 9 counterfeit Symantec software and/or software deceptively similar to Plaintiff’s
 10 software products, in order to induce Consumers to purchase from defendants
 11 instead of purchasing from Plaintiff.

12 Consumer Confusion

13 47. Plaintiff is informed and believes and on that basis alleges that
 14 defendants falsely represent their own products as genuine Norton or Symantec
 15 products via the aforementioned “pop-up” advertising, false notifications of
 16 expiration dates of Plaintiff’s software, “spam” e-mails and advertisements on
 17 defendants’ internet web sites, and market software deceptively similar to
 18 Plaintiff’s software products, in order to deceive consumers into purchasing
 19 software manufactured, marketed, distributed and/or sold by defendants, believing
 20 it to be genuine Norton and/or Symantec products.

21 48. Plaintiff alleges on information and belief that Consumers who
 22 purchased such software believed it to be produced by Plaintiff, and were
 23 confused and misled by the defendants’ deceptive methods of advertising and
 24 packaging and/or marketing, labeling, and sale of unauthorized software using
 25 Plaintiff’s trademarks.

26 Purchases of Counterfeit Software From Defendants

27 49. In or about September 2003 Plaintiff, through its agents, purchased a
 28 copy of purported NSW 2003 Pro from defendants.

BAUTE & TIDUS LLP
 801 SOUTH FIGUEROA STREET, SUITE 1100
 LOS ANGELES, CALIFORNIA 90017
 (213) 630-3000

1 50. The NSW 2003 Pro disk was delivered to Plaintiff's agents in Los
2 Angeles County. The disk was shipped in a plain brown envelope in a white
3 sleeve without any retail packaging, without any instruction manuals, and without
4 any of the materials that would come with a genuine Symantec product.

5 51. Plaintiff inspected the disk and packaging materials and determined
6 that the disk purchased from defendants was counterfeit, and was neither produced
7 by Plaintiff nor authorized by Plaintiff to be produced by any other person or
8 entity.

9 52. In or about October 2003 Plaintiff, through its agents, purchased a
10 copy of purported Norton AntiVirus 2003 from defendants.

11 53. The Norton AntiVirus 2003 disk was shipped in a plain brown
12 envelope in a white sleeve without any retail packaging, without any instruction
13 manuals, and without any of the materials that would come with a genuine
14 Symantec product.

15 54. Plaintiff inspected the disk and packaging materials and determined
16 that the disk purchased from defendants was counterfeit, and was neither produced
17 by Plaintiff nor authorized by Plaintiff to be produced by any other person or
18 entity.

19 55. Plaintiff is informed and believes and on that basis alleges that at
20 numerous other times defendants sold purported copies of Symantec products to
21 Consumers who believed they were purchasing genuine Symantec products. Some
22 of those Consumers contacted Plaintiff after becoming suspicious about the
23 products delivered by defendants.

24 56. Several Consumers sent Plaintiff the disks and packaging materials
25 they had purchased from defendants. Plaintiff inspected the disks and packaging
26 materials and determined that the disks purchased from defendants were neither
27 produced by Plaintiff nor authorized by Plaintiff to be produced by any other
28 person or entity.

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 57. Plaintiff is informed and believes and on that basis alleges that the
2 NSW 2003 Pro disks were sold by defendants and delivered to Consumers in
3 white sleeves without any retail packaging, without any instruction manuals, and
4 without any of the materials that would come with a genuine Symantec product.

5 58. Defendants sell illegal counterfeit copies of Plaintiff's software.
6 Defendants falsely represent to potential buyers that the software defendants sell is
7 manufactured by Plaintiff. The software defendants deliver to purchasers bears
8 the Symantec name and trademarks, but is neither produced by Plaintiff Symantec
9 nor produced under Plaintiff Symantec's authorization or any Symantec license.

10 59. Plaintiff is informed and believes, and on that basis alleges, that
11 defendants used unauthorized copies of Plaintiff's trademarks and/or copyrighted
12 materials as part of the computer programs that caused the deceptive "pop-up" ads
13 to appear on Consumers' computer monitors, and/or as part of the messages
14 displayed on those "pop-up" ads, and/or in the internet web sites to which those
15 Consumers were directed, and/or in the program language used to create the
16 defendants' internet web site pages.

17 60. Plaintiff is informed and believes, and on that basis alleges, that
18 defendants deliberately created their marketing scheme for the product called
19 "WinAntiVirus," and deliberately designed the packaging and advertisements for
20 WinAntiVirus, to deceive Consumers into purchasing WinAntiVirus thinking it
21 was produced by Plaintiff, when in fact the WinAntiVirus product was not
22 produced by Plaintiff but was produced by defendants and/or persons or entities
23 unrelated to Plaintiff.

24 61. Plaintiff is informed and believes, and on that basis alleges, that
25 defendants marketed, sold and delivered NSW, Norton AntiVirus, Norton
26 Utilities, Norton CleanSweep, and other software with which the purchasers or
27 recipients of such software themselves produced infringing copies of Plaintiff's
28 copyrighted works by installing the counterfeit programs on their computers. As

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 part of that installation process, each of those purchasers produces unauthorized
2 copies of Plaintiff's copyrighted works with each such installation.

3 **FIRST CLAIM FOR RELIEF**

4 **[Trademark Infringement**

5 **Lanham Act, 15 U.S.C. § 1051 - 1157]**

6 **(Against All Defendants)**

7 62. Paragraphs 1 through 61 are incorporated by this reference as though
8 set forth herein in full.

9 63. Plaintiff registered the name "Symantec" in the United States Patent
10 and Trademark Office on April 21, 1992, registration number 1683688. Plaintiff
11 owns the trademark, which continues to be in full force and effect.

12 64. Plaintiff registered the name "Norton SystemWorks" in the United
13 States Patent and Trademark Office on September 11, 2001, registration number
14 2488092. Plaintiff owns the trademark, which continues to be in full force and
15 effect.

16 65. Plaintiff registered the name "Norton AntiVirus" in the United States
17 Patent and Trademark Office on March 16, 1993, registration number 1758084.
18 Plaintiff owns the trademark, which continues to be in full force and effect.

19 66. The name "Ghost" was registered in the United States Patent and
20 Trademark Office on November 28, 1978, registration number 1107115. Plaintiff
21 owns the trademark, which continues to be in full force and effect.

22 67. Plaintiff registered the name "LiveUpdate" in the United States Patent
23 and Trademark Office on May 4, 1999, registration number 2243057. Plaintiff
24 owns the trademark, which continues to be in full force and effect.

25 68. The name "Norton Utilities" was registered in the United States
26 Patent and Trademark Office on October 18, 1988, registration number 1508960.
27 Plaintiff owns the trademark, which continues to be in full force and effect.

28 69. The name "pcAnywhere" was registered in the United States Patent

1 and Trademark Office on July 13, 1993, registration number 1781148. Plaintiff
2 owns the trademark, which continues to be in full force and effect.

3 70. From and after the date of registration of each of its trademarks,
4 Plaintiff has used the trademarks continuously to identify its products, including
5 NSW and other software. Plaintiff markets, distributes and sells software under
6 the "Symantec," "Norton SystemWorks," "Norton AntiVirus" and other
7 trademarks in California, throughout the United States, and in foreign countries.

8 71. Plaintiff is informed and believes and on that basis alleges that, at all
9 times relevant to this complaint, defendants knew that the names "Symantec,"
10 "Norton SystemWorks" and "Norton AntiVirus" were registered trademarks,
11 owned by Plaintiff. Plaintiff is informed and believes and on that basis alleges
12 that, despite that knowledge, defendants intentionally continued to infringe
13 Plaintiff's trademarks by advertising, marketing, selling and delivering software
14 bearing Plaintiff Symantec's names and trademarks, designed to look like Plaintiff
15 Symantec's software.

16 72. Plaintiff is informed and believes and on that basis alleges that
17 defendants use Plaintiff's trademarks in interstate commerce by: (1) causing
18 "spam" to be sent to Consumers, designed to mislead those Consumers into
19 believing the "spam" originated from Symantec and/or that the "spam" advertises
20 genuine Symantec products, when, in fact, the "spam" neither originates from
21 Symantec nor advertises genuine Symantec products; (2) advertising defendants'
22 products bearing the Plaintiff's trademarks on the internet; (3) using Plaintiff's
23 trademarks in or in the programming of the "pop-up" advertisements defendants
24 use to induce Consumers to purchase counterfeit and/or deceptively labeled
25 products from defendants; and (4) shipping counterfeit copies of Plaintiff's
26 software and deceptively labeled products in interstate commerce. Defendants'
27 use of Plaintiff's trademarks on defendants' products is likely to cause confusion
28 and has in fact misled and confused Consumers as to the source and quality of

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 defendants' products. Defendants' marketing and sales using deceptive
2 advertising and labeling are likely to cause confusion and have in fact misled and
3 confused Consumers as to the source and quality of defendants' products.

4 73. Plaintiff is informed and believes and on that basis alleges that as a
5 proximate result of the defendants' use of Plaintiff's trademark, defendants have
6 taken unfair advantage of Plaintiff's research, development, advertising,
7 marketing, and consumer recognition of the Symantec, NSW, Norton AntiVirus
8 and other trademarks. Plaintiff is informed and believes and on that basis alleges
9 that defendants have sold substantial amounts of software using Plaintiff's
10 trademarks, and have thereby enjoyed substantial profits, in an amount as yet
11 undetermined but as shall be proven at trial.

12 74. Plaintiff is informed and believes and on that basis alleges that unless
13 restrained by this Court, defendants will continue to infringe Plaintiff's
14 trademarks, thereby creating numerous claims against defendants and multiple
15 proceedings, and that monetary compensation cannot provide Plaintiff with
16 adequate relief for the damage caused by defendants to Plaintiff's trademarks,
17 consumer recognition, and public confidence in Plaintiff's products.

18 75. Defendants' actions, if not restrained, will continue to cause
19 irreparable harm to Plaintiff, for which Plaintiff has no adequate remedy at law.
20 Defendants misrepresent their own products as those manufactured by Plaintiff.
21 Plaintiff is informed and believes, and on that basis alleges, that Consumers who
22 purchase defendants' products, believing they have purchased Plaintiff's software,
23 will not purchase the genuine software from Plaintiff. Plaintiff has permanently
24 lost such Consumers as customers, and has permanently lost the profits Plaintiff is
25 entitled to under its trademarks.

26 76. Plaintiff is informed and believes and on that basis alleges that
27 defendants' use of misleading, irritating and frightening "pop-up" advertisements,
28 if not restrained, will continue to cause irreparable harm to Plaintiff inasmuch as

1 numerous Consumers have already complained to Plaintiff about defendants'
2 tactics, believing that Plaintiff is responsible for the "pop-up" advertisements.

3 77. Plaintiff is informed and believes and on that basis alleges that if
4 defendants' products do not work properly, defendants' actions have further
5 caused irreparable harm to Plaintiff's name and reputation, because defendants
6 market and sell their products bearing false reproductions of Plaintiff's
7 trademarks.

8 **SECOND CLAIM FOR RELIEF**

9 **[False Designation of Origin]**

10 **[Lanham Act § 43(a); 15 U.S.C. § 1125(a) and (d)]**

11 **(Against All Defendants)**

12 78. Paragraphs 1 through 77 are incorporated by this reference as though
13 set forth herein in full.

14 79. Plaintiff has marketed, advertised and promoted its software under the
15 names and logos "Symantec," "Norton SystemWorks," "Norton AntiVirus" and
16 other names and logos. As a result of this marketing, advertising and promotion,
17 Plaintiff's names and logos have come to mean and are understood to mean
18 Plaintiff's products, and are the means by which Plaintiff's products are
19 distinguished from other software in the United States and worldwide.

20 80. Because of Plaintiff's long, continuous and exclusive use of the
21 names and logos as described in this complaint, Plaintiff's names and logos have
22 acquired secondary meaning and are associated by both the software industry and
23 the public with Plaintiff's products.

24 81. Defendants' activities in advertising and/or promoting their software
25 (including, but not limited to, "pop-up" ads) bearing Plaintiff's names, logos
26 and/or trademarks constitute false designation of origin, false description, and a
27 false representation that defendants' software originates from or is sponsored,
28 approved or authorized by Plaintiff. Thus, defendants' activities constitute

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 violations of Section 43(a) of the Lanham Trademark Act, 15 U.S.C. § 1125(a).

2 82. Defendants' use of misspelled versions of Plaintiff's trademarks and
3 names in domain names that defendants use to direct or redirect consumers to
4 defendants' internet web sites constitutes false designation of origin, false
5 description, and a false representation that defendants' software originates from or
6 is sponsored, approved or authorized by Plaintiff. Thus, defendants' activities
7 constitute violations of Section 43(a) of the Lanham Trademark Act, 15 U.S.C.
8 § 1125(a) and (d).

9 83. As a result of the foregoing, Plaintiff has been damaged in an amount
10 which has not been precisely ascertained, but which will be alleged by amendment
11 at such time when it is precisely ascertained.

12 84. The activities of defendants have caused and will cause irreparable
13 harm to Plaintiff for which Plaintiff has no adequate remedy at law in that (1) if
14 defendants' wrongful conduct continues, consumers are likely to become further
15 confused as to the ownership and/or affiliations of defendants' products; (2) the
16 infringement by defendants constitutes an interference with Plaintiff's goodwill
17 and customer relationships; and (3) defendants' wrongful conduct, and the
18 damages resulting to Plaintiff, are continuing. Accordingly, Plaintiff is entitled to
19 preliminary and permanent injunctive relief.

20 85. Defendants have committed the acts alleged above with previous
21 knowledge of Plaintiff's prior use and superior rights to its names and logos, and
22 with previous knowledge of the reputation of Plaintiff's products.

23 86. Further, defendants' actions were for the willful and calculated
24 purpose of attracting customers to their products based upon the good will of
25 Plaintiff's name and business reputation, so as to mislead and deceive purchasers
26 and the public. Defendants' actions have caused and/or are likely to cause
27 confusion and mistake among purchasers and the public as to the ownership or
28 association of their products, all to defendants' gain and Plaintiff's damage.

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 87. Plaintiff is also entitled to recovery of attorneys' fees and costs of suit
2 pursuant to 15 U.S.C. § 1117.

3 **THIRD CLAIM FOR RELIEF**

4 **[Copyright Infringement**

5 **17 U.S.C. § 501]**

6 **(Against All Defendants)**

7 88. Paragraphs 1 through 87 are incorporated by this reference as though
8 set forth herein in full.

9 89. Plaintiff designed, created, developed and owns or licenses software,
10 including NSW, the other software included in the various versions of NSW, and
11 Norton AntiVirus, which constitute the original work of Plaintiff.

12 90. Plaintiff complied with all laws governing copyright and secured the
13 exclusive rights and privileges in and to the copyrights of NSW, Norton
14 AntiVirus, Norton Utilities, Norton CleanSweep, Norton Ghost and other
15 software.

16 91. Plaintiff has produced copies of the software in compliance with all
17 copyright laws, whether by producing copies itself or under license to third
18 parties.

19 92. Defendants infringed Plaintiff's copyrights on NSW, Norton
20 AntiVirus, Norton Utilities, Norton CleanSweep, and other software by marketing,
21 selling and delivering software largely, if not entirely, copied from Plaintiff's
22 software.

23 93. Plaintiff is informed and believes and on that basis alleges that at all
24 times relevant to this Complaint, defendants knew that Plaintiff owned both the
25 trademark and the copyright for NSW and other software.

26 94. Despite that knowledge, defendants, and each of them, continue to
27 advertise, market, sell and deliver counterfeit copies of Plaintiff's software,
28 knowing that the discs they deliver are counterfeits and infringing on Plaintiff's

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 copyrights. These actions have caused and continue to cause irreparable injury to
2 Plaintiff by inducing Plaintiff's prospective customers to purchase software from
3 defendants instead of from Plaintiff, and by misleading consumers as to the source
4 of the software.

5 95. At least from and after 2002, defendants have been producing,
6 marketing, selling and delivering counterfeit copies of Plaintiff's software, in
7 violation and derogation of Plaintiff's copyrights on such software, thereby
8 engaging in unfair trade practices and unfair competition against Plaintiff, causing
9 irreparable damage to Plaintiff.

10 96. Plaintiff is informed and believes and on that basis alleges that as a
11 proximate result of the defendants' marketing, selling and delivering counterfeit
12 copies of Plaintiff's software, defendants have taken unfair advantage of
13 Plaintiff's research, development, advertising, marketing, and consumer
14 recognition of the copyrighted content of the software sold by Plaintiff. Plaintiff
15 is informed and believes and on that basis alleges that defendants have sold
16 numerous counterfeit copies of Plaintiff's software, and have thereby enjoyed
17 substantial profits, in an amount as yet undetermined but as shall be proven at
18 trial.

19 97. Defendants' actions, if not restrained, will continue to cause
20 irreparable harm to Plaintiff, for which Plaintiff has no adequate remedy at law.
21 Defendants misrepresent their own products as those manufactured by Plaintiff.
22 Plaintiff is informed and believes, and on that basis alleges, that consumers who
23 purchase defendants' products, believing they have purchased Plaintiff's software,
24 will not purchase the genuine software from Plaintiff. Plaintiff has permanently
25 lost such consumers as customers, and has permanently lost the profits Plaintiff is
26 entitled to under its copyrights.

27
28

FOURTH CLAIM FOR RELIEF

[Fraud]

(Against all Defendants)

98. Paragraphs 1 through 97 are incorporated by this reference as though set forth herein in full.

99. Plaintiff is informed and believes and on that basis alleges that defendants, in their marketing and advertising (including "spam" and "pop-ups" as alleged in this Complaint) and on their internet web sites, have deliberately misrepresented to consumers that the products sold are Symantec and/or Norton products, knowing that they are not.

100. Plaintiff is informed and believes and on that basis alleges that defendants intend that consumers will communicate those misrepresentations to plaintiff in order to obtain free customer service and free updates or upgrades that are available only to owners of genuine, authorized Symantec and/or Norton software products.

101. Plaintiff is informed and believes and on that basis alleges that defendants make those misrepresentations intending that plaintiff will act in reasonable reliance thereon, including but not limited to by providing free customer service and free updates or upgrades to purchasers of defendants' products that are available only to owners of genuine, authorized Symantec and/or Norton software products.

102. Plaintiff is informed and believes and on that basis alleges that plaintiff has justifiably relied on the misrepresentations of defendants in that plaintiff has provided free customer service and free updates or upgrades to some purchasers of defendants' products.

103. Plaintiff has suffered damages as a proximate result of the defendants' wrongful acts in an amount as yet undetermined, but in an amount that will be proven at trial.

104. Defendants' conduct was and continues to be oppressive, fraudulent and malicious. Accordingly, Plaintiff is entitled to punitive damages in an amount to be proven at trial.

FIFTH CLAIM FOR RELIEF

[Unfair Competition

Calif. B&P Code § 17200, et seq.]

(Against all Defendants)

105. Paragraphs 1 through 104 are incorporated by this reference as though set forth herein in full.

106. Plaintiff is informed and believes and on that basis alleges that defendants have used "pop-up" advertisements, "spam," misspelled domain names confusingly and deceptively similar to Plaintiff's names and trademarks, and other unfair methods to direct consumers away from Plaintiff's internet web sites and to defendants' internet web sites. Defendants use these unfair methods to induce consumers to purchase products from defendants instead of from Plaintiff. The products defendants sell to consumers are counterfeit, unauthorized copies of Plaintiff's software and/or products deceptively similar to Plaintiff's products.

107. Plaintiff is informed and believes and on that basis alleges that defendants designed their marketing and advertising schemes for the purpose of confusing consumers and deceiving them into purchasing counterfeit and/or deceptively labeled products from defendants instead of genuine, authorized copies of Plaintiff's products.

108. The wrongful acts by defendants, as alleged throughout this complaint, constitute unlawful, unfair or fraudulent business acts and/or practices and unfair, deceptive, untrue or misleading statements and advertising in violation of California Business and Professions Code ("B&P") § 17200.

109. Plaintiff is informed and believes, and on that basis alleges, that

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 defendants have developed lists of customers who have purchased counterfeit
2 Symantec products, and use those lists to market additional products to those
3 customers by, among other things, "pop-up" advertising. Plaintiff is informed and
4 believes, and on that basis alleges, that defendants have further misled those
5 customers into believing additional products offered for sale by defendants are
6 Symantec products or upgrades to Symantec products, when in fact they are not.

7 110. As a result of irreparable injuries to Plaintiff caused by defendants'
8 actions for which Plaintiff has no adequate remedy at law, defendants' acts
9 constituting unfair competition should be enjoined, and the Court should make
10 such orders or judgments as may be necessary to prevent the use of any practice
11 which constitutes unfair competition under B&P § 17203.

12 111. Under B&P § 17203, and in addition to, or in lieu of, the damages
13 Plaintiff has sustained to its business and reputation as a result of defendants'
14 actions, Plaintiff seeks as damages restitution and/or disgorgement of the profits
15 that defendants have made by virtue of their acts of unfair competition, in an
16 amount as yet undetermined but as shall be proven at trial.

17 **SIXTH CLAIM FOR RELIEF**

18 **[Common Law Unfair Competition]**

19 **(Against all Defendants)**

20 112. Paragraphs 1 through 111 are incorporated by this reference as
21 though set forth herein in full.

22 113. Defendants have pirated the fruits of Plaintiff's labor and are
23 "palming off" those fruits as their own.

24 114. Due to defendants' acts of unfair competition, trade dress
25 infringement, and deception, buyers of NSW and other software sold by
26 defendants under the Symantec label have been deceived as to the source,
27 approval and/or sponsorship of defendants' software, believing they are
28 purchasing software manufactured by Plaintiff when in fact they are not.

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

1 115. As a result of defendants' acts of unfair competition, Plaintiff has lost
2 sales and profits in an amount as yet undetermined but in an amount that will be
3 proven at trial.

4 116. Defendants' conduct was and continues to be oppressive, fraudulent
5 and malicious. Accordingly, Plaintiff is entitled to punitive damages in an amount
6 to be proven at trial.

7 **SEVENTH CLAIM FOR RELIEF**

8 **[False Advertising**

9 **Calif. B&P Code §§ 17500, 17200]**

10 **(Against all Defendants)**

11 117. Paragraphs 1 through 116 are incorporated by this reference as
12 though set forth herein in full.

13 118. Plaintiff is informed and believes, and on that basis alleges, that
14 defendants include pictures of Plaintiff's software and depictions of Plaintiff's
15 trademarks and logos in their advertising materials sent to consumers as "spam,"
16 on the internet and elsewhere.

17 119. Plaintiff is informed and believes, and on that basis alleges, that
18 defendants also use language and phrases copied from Plaintiff's advertising
19 literature in their advertising materials, which were disseminated to the public.

20 120. Plaintiff is informed and believes and on that basis alleges that
21 defendants disseminate their "pop-up" advertisements to the public. In those
22 "pop-up" advertisements and/or in their internet web sites, defendants use
23 Plaintiff's trademarks and logos, unauthorized copies of and/or depictions of
24 Plaintiff's products, and/or language and phrases copied from Plaintiff's
25 advertising literature.

26 121. The pictures, depictions, language and phrases constitute untrue or
27 misleading statements and advertising in violation of B&P § 17500 in that they
28 suggest the software for sale in the defendants' advertising is software

1 manufactured by Plaintiff, when, in truth, what is being sold is defendants' inferior
2 products.

3 122. The false and misleading statements and advertising also constitute
4 practices that serve as a predicate for a B&P § 17200 violation, and Plaintiff
5 separately alleges a violation of B&P § 17200.

6 123. As a result of defendants' actions, Plaintiff has been damaged in an
7 amount as yet undetermined, but in an amount that will be proven at trial.

8 124. Defendants' conduct was and continues to be oppressive, fraudulent
9 and malicious. Accordingly, Plaintiff is entitled to punitive damages in an amount
10 to be proven at trial.

11 **EIGHTH CLAIM FOR RELIEF**

12 **[Intentional Interference with Prospective Economic Advantage]**

13 **(Against all Defendants)**

14 125. Paragraphs 1 through 124 are incorporated by this reference as
15 though set forth herein in full.

16 126. This count arises under the unfair competition laws of the State of
17 California.

18 127. Plaintiff has over the years developed a large base of customers and
19 institutions who purchase Plaintiff's products. Plaintiff has also developed a
20 substantial and valuable economic relationship with its products, software
21 including but not limited to NSW.

22 128. Defendants contacted Plaintiff's actual and prospective customers
23 with the intent to deprive Plaintiff of those customers' business. Those customers
24 then purchased products from defendants rather than from Plaintiff. Defendants
25 also interfered with Plaintiff's relationship with its products by marketing and
26 distributing inferior and confusing counterfeit and/or knock-off versions.

27 129. As a proximate result of defendants' conduct, Plaintiff suffered
28 damages in a sum in excess of \$1,000,000.

130. The acts of defendants were willful and malicious. Plaintiff is therefore entitled to punitive damages in an amount not less than \$5,000,000. Unless restrained, defendants will continue to solicit Plaintiff's customers and money damages could not afford adequate relief.

NINTH CLAIM FOR RELIEF

**[Negligent Interference with Prospective Economic Advantage]
(Against all Defendants)**

131. Paragraphs 1 through 130 are incorporated by this reference as though set forth herein in full.

132. This count arises under the unfair competition laws of the State of California.

133. Plaintiff has over the years developed a large base of customers and institutions who purchase Plaintiff's products. Plaintiff has also developed a substantial and valuable economic relationship with its products, software including but not limited to NSW.

134. Defendants have a duty to use due care to refrain from wrongful actions that would interfere with Plaintiff's prospective economically advantageous relationships with Plaintiff's existing customers, potential customers, and products.

135. Defendants breached their duties by soliciting Plaintiff's existing and/or potential customers for the purpose of selling to them products bearing Plaintiff's trademarks but which defendant knew or should have known were counterfeit. Those customers then purchased counterfeit products from defendants rather than genuine Symantec products from Plaintiff. Defendants also interfered with Plaintiff's relationship with its products by marketing confusing knock-off versions when defendants should have known those versions were counterfeit.

136. As a proximate result of defendants' conduct, Plaintiff suffered damages in a sum in excess of \$1,000,000.

PRAYER

WHEREFORE, Plaintiff prays for judgment as follows:

I. On the First Claim for Relief for Trademark Infringement (Lanham Act, 15 U.S.C. § 1051 - 1157):

A. That defendants, their officers, agents, and servants, and all persons acting in concert with them, be temporarily restrained, preliminarily enjoined during the pendency of this action, and permanently enjoined thereafter from engaging in further acts of:

1. using photos of Plaintiff's products or depictions of Plaintiff's products or logos in defendants' advertising;
2. advertising, selling, licensing, or otherwise marketing or distributing defendants' pirated copies of Plaintiff's software, or any product configuration similar to Plaintiff's products;
3. using language and phrases contained in Plaintiff's advertising literature in defendants' advertising;
4. causing any "pop-up" advertisement or warning to appear on any computer that does any of the acts prohibited in A.1, A.2, or A.3 above;
5. contacting, soliciting, directing advertisements to, or in any other manner using any information about any consumer to whom defendants have sold, distributed, delivered and/or directed advertising for Norton and/or Symantec products or counterfeit Norton and/or Symantec products; and
6. using any internet domain name that is deceptively similar to any of Plaintiff's trademarks.

B. That defendants be required to turn over to Plaintiff any products advertised or packaged to appear similar to genuine Norton and/or Symantec products, together with the names, addresses, telephone

1 numbers, e-mail addresses and other information concerning any and
2 all consumers to whom defendants have sold, distributed, delivered
3 and/or directed advertising for Norton and/or Symantec products or
4 counterfeit Norton and/or Symantec products.

5 C. That defendants pay to Plaintiff the damages Plaintiff has sustained as
6 a consequence of their conduct.

7 D. That defendants be required to account for and pay over to Plaintiff
8 all the profits which they have derived from their wrongful activities
9 and to pay such damages to Plaintiff as to this Court shall appear just
10 and proper.

11 E. That defendants pay to Plaintiff punitive and/or treble damages for
12 their intentional and willful wrongful acts.

13 F. That Plaintiff recover its costs and reasonable attorneys' fees.

14 G. That defendants transfer to Plaintiff ownership and control of each
15 internet domain name owned or controlled by any of the defendants,
16 their officers, agents, and/or any persons acting in concert with them,
17 that is deceptively similar to any of Plaintiff's trademarks.

18 H. That Plaintiff have such other and further relief as to this Court shall
19 appear just and proper.

20 II. On the Second Claim for Relief for False Designation of Origin — Lanham
21 Act § 43(a):

22 A. That defendants, their officers, agents, and servants, and all persons
23 acting in concert with them, be temporarily restrained, preliminarily
24 enjoined during the pendency of this action, and permanently
25 enjoined thereafter from engaging in further acts of:

- 26 1. using photos of Plaintiff's products or depictions of Plaintiff's
27 products or logos in defendants' advertising;
- 28 2. advertising, selling, licensing, or otherwise marketing or

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

- 1 distributing defendants' pirated copies of Plaintiff's software,
- 2 or any product configuration similar to Plaintiff's products;
- 3 3. using language and phrases contained in Plaintiff's advertising
- 4 literature in defendants' advertising;
- 5 4. causing any "pop-up" advertisement or warning to appear on
- 6 any computer that does any of the acts prohibited in A.1, A.2,
- 7 or A.3 above;
- 8 5. contacting, soliciting, directing advertisements to, or in any
- 9 other manner using any information about any consumer to
- 10 whom defendants have sold, distributed, delivered and/or
- 11 directed advertising for Norton and/or Symantec products or
- 12 counterfeit Norton and/or Symantec products; and
- 13 6. using any internet domain name that is deceptively similar to
- 14 any of Plaintiff's trademarks.

- 15 B. That defendants be required to turn over to Plaintiff any products
- 16 advertised or packaged to appear similar to genuine Norton and/or
- 17 Symantec products, together with the names, addresses, telephone
- 18 numbers, e-mail addresses and other information concerning any and
- 19 all consumers to whom defendants have sold, distributed, delivered
- 20 and/or directed advertising for Norton and/or Symantec products or
- 21 counterfeit Norton and/or Symantec products.
- 22 C. That defendants pay to Plaintiff the damages Plaintiff has sustained as
- 23 a consequence of their conduct.
- 24 D. That defendants be required to account for and pay over to Plaintiff
- 25 all the profits which they have derived from their wrongful activities
- 26 and to pay such damages to Plaintiff as to this Court shall appear just
- 27 and proper.
- 28 E. That defendants pay to Plaintiff punitive and/or treble damages for

1 their intentional and willful wrongful acts.

2 F. That Plaintiff recover its costs and reasonable attorneys' fees.

3 G. That defendants transfer to Plaintiff ownership and control of each
4 internet domain name owned or controlled by any of the defendants,
5 their officers, agents, and/or any persons acting in concert with them,
6 that is deceptively similar to any of Plaintiff's trademarks.

7 H. That Plaintiff have such other and further relief as to this Court shall
8 appear just and proper.

9 III. On the Third Claim for Relief for Copyright Infringement:

10 A. That defendants, their officers, agents, and servants, and all persons
11 acting in concert with them, be temporarily restrained, preliminarily
12 enjoined during the pendency of this action, and permanently
13 enjoined thereafter from engaging in further acts of:

- 14 1. using photos of Plaintiff's products or depictions of Plaintiff's
15 products or logos in defendants' advertising;
- 16 2. advertising, selling, licensing, or otherwise marketing or
17 distributing defendants' pirated copies of Plaintiff's software,
18 or any product configuration similar to Plaintiff's products;
- 19 3. using language and phrases contained in Plaintiff's advertising
20 literature in defendants' advertising;
- 21 4. causing any "pop-up" advertisement or warning to appear on
22 any computer that does any of the acts prohibited in A.1, A.2,
23 or A.3 above; and
- 24 5. contacting, soliciting, directing advertisements to, or in any
25 other manner using any information about any consumer to
26 whom defendants have sold, distributed, delivered and/or
27 directed advertising for Norton and/or Symantec products or
28 counterfeit Norton and/or Symantec products.

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

- 1 B. That defendants be required to turn over to Plaintiff any products
2 advertised or packaged to appear similar to genuine Norton and/or
3 Symantec products, together with the names, addresses, telephone
4 numbers, e-mail addresses and other information concerning any and
5 all consumers to whom defendants have sold, distributed, delivered
6 and/or directed advertising for Norton and/or Symantec products or
7 counterfeit Norton and/or Symantec products.
- 8 C. That defendants pay to Plaintiff the damages Plaintiff has sustained as
9 a consequence of their conduct.
- 10 D. That defendants be required to account for and pay over to Plaintiff
11 all the profits which they have derived from their wrongful activities
12 and to pay such damages to Plaintiff as to this Court shall appear just
13 and proper.
- 14 E. That, upon election by Plaintiff, defendants be required to pay the
15 maximum allowable amount of statutory damages for their wrongful
16 acts.
- 17 F. That Plaintiff recover its costs and reasonable attorneys' fees.
- 18 G. That Plaintiff have such other and further relief as to this Court shall
19 appear just and proper.

20 IV. On the Fourth Claim for Relief for Fraud:

- 21 A. That defendants, their officers, agents, and servants, and all persons
22 acting in concert with them, be temporarily restrained, preliminarily
23 enjoined during the pendency of this action, and permanently
24 enjoined thereafter from engaging in further acts of:
- 25 1. using photos of Plaintiff's products or depictions of Plaintiff's
26 products or logos in defendants' advertising;
 - 27 2. advertising, selling, licensing, or otherwise marketing or
28 distributing defendants' pirated copies of Plaintiff's software,

BAUTE & TIDUS LLP
801 SOUTH FIGUEROA STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90017
(213) 630-5000

- 1 or any product configuration similar to Plaintiff's products;
- 2 3. using language and phrases contained in Plaintiff's advertising
- 3 literature in defendants' advertising;
- 4 4. causing any "pop-up" advertisement or warning to appear on
- 5 any computer that does any of the acts prohibited in A.1, A.2,
- 6 or A.3 above;
- 7 5. contacting, soliciting, directing advertisements to, or in any
- 8 other manner using any information about any consumer to
- 9 whom defendants have sold, distributed, delivered and/or
- 10 directed advertising for Norton and/or Symantec products or
- 11 counterfeit Norton and/or Symantec products; and
- 12 6. using any internet domain name that is deceptively similar to
- 13 any of Plaintiff's trademarks.

- 14 B. That defendants be required to turn over to Plaintiff any products
- 15 advertised or packaged to appear similar to genuine Norton and/or
- 16 Symantec products, together with the names, addresses, telephone
- 17 numbers, e-mail addresses and other information concerning any and
- 18 all consumers to whom defendants have sold, distributed, delivered
- 19 and/or directed advertising for Norton and/or Symantec products or
- 20 counterfeit Norton and/or Symantec products.
- 21 C. That defendants pay to Plaintiff the damages Plaintiff has sustained as
- 22 a consequence of their conduct.
- 23 D. That defendants be required to account for and pay over to Plaintiff
- 24 all the profits which they have derived from their wrongful activities
- 25 and to pay such damages to Plaintiff as to this Court shall appear just
- 26 and proper.
- 27 E. That defendants pay to Plaintiff punitive damages for their intentional
- 28 and willful wrongful acts.

1 F. That Plaintiff recover its costs and reasonable attorneys' fees.

2 G. That defendants transfer to Plaintiff ownership and control of each
3 internet domain name owned or controlled by any of the defendants,
4 their officers, agents, and/or any persons acting in concert with them,
5 that is deceptively similar to any of Plaintiff's trademarks.

6 H. That Plaintiff have such other and further relief as to this Court shall
7 appear just and proper.

8 V. On the Fifth Claim for Relief for Unfair Competition (Calif. B&P Code
9 § 17200, *et seq.*):

10 A. That defendants, their officers, agents, and servants, and all persons
11 acting in concert with them, be temporarily restrained, preliminarily
12 enjoined during the pendency of this action, and permanently
13 enjoined thereafter from engaging in further acts of:

- 14 1. using photos of Plaintiff's products or depictions of Plaintiff's
15 products or logos in defendants' advertising;
- 16 2. advertising, selling, licensing, or otherwise marketing or
17 distributing defendants' pirated copies of Plaintiff's software,
18 or any product configuration similar to Plaintiff's products;
- 19 3. using language and phrases contained in Plaintiff's advertising
20 literature in defendants' advertising;
- 21 4. causing any "pop-up" advertisement or warning to appear on
22 any computer that does any of the acts prohibited in A.1, A.2,
23 or A.3 above;
- 24 5. contacting, soliciting, directing advertisements to, or in any
25 other manner using any information about any consumer to
26 whom defendants have sold, distributed, delivered and/or
27 directed advertising for Norton and/or Symantec products or
28 counterfeit Norton and/or Symantec products; and

- 1 6. using any internet domain name that is deceptively similar to
- 2 any of Plaintiff's trademarks.
- 3 B. That defendants be required to turn over to Plaintiff any products
- 4 advertised or packaged to appear similar to genuine Norton and/or
- 5 Symantec products, together with the names, addresses, telephone
- 6 numbers, e-mail addresses and other information concerning any and
- 7 all consumers to whom defendants have sold, distributed, delivered
- 8 and/or directed advertising for Norton and/or Symantec products or
- 9 counterfeit Norton and/or Symantec products.
- 10 C. That defendants be required to account for and pay over to Plaintiff
- 11 all the profits which they have derived from their wrongful activities
- 12 and to pay such damages to Plaintiff as to this Court shall appear just
- 13 and proper.
- 14 D. That Plaintiff recover its costs and reasonable attorneys' fees.
- 15 E. That defendants transfer to Plaintiff ownership and control of each
- 16 internet domain name owned or controlled by any of the defendants,
- 17 their officers, agents, and/or any persons acting in concert with them,
- 18 that is deceptively similar to any of Plaintiff's trademarks.
- 19 F. That Plaintiff have such other and further relief as to this Court shall
- 20 appear just and proper.
- 21 VI. On the Sixth Claim for Relief for Common Law Unfair Competition:
- 22 A. That defendants, their officers, agents, and servants, and all persons
- 23 acting in concert with them, be temporarily restrained, preliminarily
- 24 enjoined during the pendency of this action, and permanently
- 25 enjoined thereafter from engaging in further acts of:
- 26 1. using photos of Plaintiff's products or depictions of Plaintiff's
- 27 products or logos in defendants' advertising;
- 28 2. advertising, selling, licensing, or otherwise marketing or

- 1 distributing defendants' pirated copies of Plaintiff's software,
- 2 or any product configuration similar to Plaintiff's products;
- 3 3. using language and phrases contained in Plaintiff's advertising
- 4 literature in defendants' advertising;
- 5 4. causing any "pop-up" advertisement or warning to appear on
- 6 any computer that does any of the acts prohibited in A.1, A.2,
- 7 or A.3 above;
- 8 5. contacting, soliciting, directing advertisements to, or in any
- 9 other manner using any information about any consumer to
- 10 whom defendants have sold, distributed, delivered and/or
- 11 directed advertising for Norton and/or Symantec products or
- 12 counterfeit Norton and/or Symantec products; and
- 13 6. using any internet domain name that is deceptively similar to
- 14 any of Plaintiff's trademarks.

- 15 B. That defendants be required to turn over to Plaintiff any products
- 16 advertised or packaged to appear similar to genuine Norton and/or
- 17 Symantec products, together with the names, addresses, telephone
- 18 numbers, e-mail addresses and other information concerning any and
- 19 all consumers to whom defendants have sold, distributed, delivered
- 20 and/or directed advertising for Norton and/or Symantec products or
- 21 counterfeit Norton and/or Symantec products.
- 22 C. That defendants pay to Plaintiff the damages Plaintiff has sustained as
- 23 a consequence of their conduct.
- 24 D. That defendants be required to account for and pay over to Plaintiff
- 25 all the profits which they have derived from their wrongful activities
- 26 and to pay such damages to Plaintiff as to this Court shall appear just
- 27 and proper.
- 28 E. That defendants pay to Plaintiff punitive damages for their intentional

1 and willful wrongful acts.

2 F. That Plaintiff recover its costs and reasonable attorneys' fees.

3 G. That defendants transfer to Plaintiff ownership and control of each
4 internet domain name owned or controlled by any of the defendants,
5 their officers, agents, and/or any persons acting in concert with them,
6 that is deceptively similar to any of Plaintiff's trademarks.

7 H. That Plaintiff have such other and further relief as to this Court shall
8 appear just and proper.

9 VII. On the Seventh Claim for Relief for False Advertising (Calif. B&P Code
10 §§ 17500, 17200):

11 A. That defendants, their officers, agents, and servants, and all persons
12 acting in concert with them, be temporarily restrained, preliminarily
13 enjoined during the pendency of this action, and permanently
14 enjoined thereafter from engaging in further acts of:

- 15 1. using photos of Plaintiff's products or depictions of Plaintiff's
16 products or logos in defendants' advertising;
- 17 2. advertising, selling, licensing, or otherwise marketing or
18 distributing defendants' pirated copies of Plaintiff's software,
19 or any product configuration similar to Plaintiff's products;
- 20 3. using language and phrases contained in Plaintiff's advertising
21 literature in defendants' advertising;
- 22 4. causing any "pop-up" advertisement or warning to appear on
23 any computer that does any of the acts prohibited in A.1, A.2,
24 or A.3 above;
- 25 5. contacting, soliciting, directing advertisements to, or in any
26 other manner using any information about any consumer to
27 whom defendants have sold, distributed, delivered and/or
28 directed advertising for Norton and/or Symantec products or

1 counterfeit Norton and/or Symantec products; and

2 6. using any internet domain name that is deceptively similar to
3 any of Plaintiff's trademarks.

4 B. That defendants be required to turn over to Plaintiff any products
5 advertised or packaged to appear similar to genuine Norton and/or
6 Symantec products, together with the names, addresses, telephone
7 numbers, e-mail addresses and other information concerning any and
8 all consumers to whom defendants have sold, distributed, delivered
9 and/or directed advertising for Norton and/or Symantec products or
10 counterfeit Norton and/or Symantec products.

11 C. That defendants be required to account for and pay over to Plaintiff
12 all the profits which they have derived from their wrongful activities
13 and to pay such damages to Plaintiff as to this Court shall appear just
14 and proper.

15 D. That Plaintiff recover its costs and reasonable attorneys' fees.

16 E. That defendants transfer to Plaintiff ownership and control of each
17 internet domain name owned or controlled by any of the defendants,
18 their officers, agents, and/or any persons acting in concert with them,
19 that is deceptively similar to any of Plaintiff's trademarks.

20 F. That Plaintiff have such other and further relief as to this Court shall
21 appear just and proper.

22 VIII. On the Eighth Claim for Relief for Intentional Interference with Prospective
23 Economic Advantage:

24 A. That defendants pay to Plaintiff the damages Plaintiff has sustained as
25 a consequence of their conduct.

Attorneys Present for Plaintiffs:

Attorneys Present for Defendants:

Patrick Maloney

Kenneth Perkins
Brian DobbsProceedings: EX PARTE Application for Relief from Default

Before the Court is defendant Sam Jain's ("Jain") Ex Parte Application for Relief from Default (Docket No. 89). Plaintiff Symantec Corporation's ("Symantec") Complaint alleges that Jain and others sold counterfeit copies of Symantec's software through several internet retailers controlled by defendants. Symantec purchased copies of the software and determined them to be counterfeit. Symantec filed suit alleging claims for trademark and copyright infringement and state law causes of action for unfair competition, false advertising, and interference with prospective economic advantage. All defendants except Jain either settled with Symantec or have been dismissed.

Symantec had a difficult time finding Jain and serving him with the Complaint. In August 2004, Symantec sought additional time to serve Jain and to serve him by alternate methods. In support of its motion for additional time, Symantec submitted responses to discovery it had conducted to determine Jain's whereabouts. In deposing James Reno, Jain's co-defendant, Symantec discovered that Jain had referred Reno to Kenneth Perkins, Jain's lawyer on other matters, and that Jain was paying Perkins to defend Reno in this action. Symantec also learned that Reno sent a copy of the summons and complaint to Jain and that Reno, Jain, and Perkins had a conference call in which Jain and Reno discussed Symantec's claims against them with Perkins. Symantec also deposed Jain's father in August 2004. Jain's father testified that he had discussed Symantec's lawsuit with his son. Symantec's discovery efforts also identified certain e-mail addresses and a facsimile number that Reno and Perkins had used to contact Jain. The e-mail addresses and facsimile number were active just weeks before Symantec sought permission, through its noticed motion, to serve Jain at the e-mail addresses and facsimile number had identified.

The Court granted Symantec's motion for an extension of time to serve Jain and authorized service by publication in Los Angeles and Honolulu, where Jain had last lived, through the e-mail addresses and facsimile number Symantec had identified, and by serving Perkins. The Court concluded that these methods were reasonably calculated under the circumstances to provide Jain with notice of the

CIVIL MINUTES - GENERAL

Case No. CV 04-3017 PA (Mcx) Date March 28, 2005

Title Symantec Corp. v. James Reno, et al.

STAMPED

pendency of the action and an opportunity to present his objections. See Rio Properties, Inc. v. Rio International Interlink, 284 F.3d 1007, 1016-17 (9th Cir. 2002). Symantec served Jain as authorized by the Court as of October 4, 2004, but the e-mail addresses and facsimile number Symantec had identified had been shutdown in the weeks between the filing of Symantec's motion and the hearing date. Jain still did not respond to the Complaint and the Court, on November 29, 2004, directed that Symantec seek Jain's default by December 9, 2004. Symantec filed a request for entry of Jain's default on December 6, 2004, and the clerk entered Jain's default on December 9, 2004.

On January 4, 2005, the Court ordered Symantec to file a motion for default judgment or other dispositive motion against Jain by January 14, 2005. Symantec filed a motion for default judgment with a February 28, 2005 hearing date. Jain filed no opposition to the motion for default judgment. On February 23, 2005, the Court continued the hearing date to March 21, 2005 and ordered Symantec to supplement its evidence on damages. Unbeknownst to the Court, Jain had retained Perkins in January to represent him in this matter. Perkins contacted Symantec in January seeking Symantec's agreement on a stipulation vacating Jain's default. Symantec rejected the stipulation. Jain did not seek relief from the default or in any other way appear in the action or oppose the default until March 18, 2005 when he filed this ex parte application.

In support of his ex parte application, Jain has submitted a declaration in which he states that he "failed to seek legal representation in this matter or to timely respond to Plaintiff's complaint because I mistakenly believed that I had not been properly served with the summons and complaint." Jain asserts that he has "a just and complete defense" to Symantec's claims and seeks to file a cross-claim for indemnity against those from whom he claims to have purchased the allegedly counterfeit Symantec software. Symantec has filed an opposition to Jain's ex parte application and requests that the Court instead grant Symantec's pending motion for default judgment.

Federal Rule of Civil Procedure 55(c) provides that a court may set aside the entry of a default "[f]or good cause shown." "The 'good cause' standard that governs vacating an entry of default under Rule 55(c) is the same standard that governs vacating a default judgment under Rule 60(b)." Franchise Holding II, LLC v. Huntington Restaurants Group, Inc., 375 F.3d 922, 925 (9th Cir. 2004). As a result, in determining whether to vacate the entry of a default or a default judgment, the district court should consider "whether the defendant's culpable conduct led to the default; whether the defendant has a meritorious defense; and whether reopening the default . . . would prejudice the plaintiff." TCI Group Life Ins. Plan v. Knoebber, 244 F.3d 691, 696 (9th Cir. 2001). "This tripartite test is disjunctive. Hence, the trial court's denial of a motion to vacate a default judgment will be affirmed if the defendant's own culpable conduct prompted the default." In re Hammer, 940 F.2d 524, 526 (9th Cir. 1991) (citations omitted). The party seeking to vacate a default judgment bears the burden of demonstrating that the factors favor vacating the default. TCI Group Life Ins. Plan, 244 F.3d at 696.

Although motions for relief from entry of default under Rule 55(c) apply the same "good cause"

SCANNED

standard as motions to vacate default judgments, the Ninth Circuit "recognize[s] that the standards for setting aside entry of default under Rule 55(c) are less rigorous than those for setting aside a default." Hawaii Carpenters' Trust Funds v. Stone, 794 F.2d 508, 513 (9th Cir. 1986). Because judgments on the merits are favored, "appropriate exercise of district court discretion . . . requires that the finality interest should give way fairly readily to further the competing interest in reaching the merits of a dispute." TCI Group Life Ins. Plan, 244 F.3d at 696.

Here, there is no question that Jain received actual notice of the Complaint months before his default was entered. "A party's conduct is culpable if he has received actual or constructive notice of the filing of the action and failed to answer the complaint." In re Hammer, 940 F.2d at 526; TCI Group Life Ins. Plan, 244 F.3d at 698 ("[W]e have typically held that a defendant's conduct was culpable . . . where there is no explanation of the default inconsistent with a devious, deliberate, willful, or bad faith failure to respond."). Jain's declaration does not claim ignorance of the action. Instead, Jain states that he "did not think it was necessary" to file an answer because he "mistakenly believed that [he] had not been properly served with the summons and complaint." Having been sued previously, Jain is no stranger to litigation. Moreover, Jain discussed the matter with Perkins, his attorney on other matters, and was paying Perkins to defend Reno in this action. As the Ninth Circuit has explained, such circumstances indicate culpability:

[W]e have tended to consider the defaulting party's general familiarity with legal processes or consultation with lawyers at the time of the default as pertinent to the determination whether the party's conduct in failing to respond to legal process was deliberate, willful or in bad faith. Absent some explanation . . . it is fair to expect that individuals who have previously been involved in litigation or have consulted with a lawyer appreciate the consequences of failing to answer and do so only if they see some advantage to themselves.

TCI Group Life Ins. Plan, 244 F.3d at 699.

All of the information available to the Court supports the conclusion that Jain alone is responsible for the entry of the default against him. He had actual notice of this action from the very beginning. He discussed the matter with his attorney long before his default was entered, arranged for Perkins to defend Reno, and paid Perkins' attorney's fees. Jain appears to have attempted to evade service by, among other things, not even informing his parents of his address. Additionally, the timing of the discontinuation of the e-mail addresses and the facsimile number which were working just weeks before Symantec sought permission to serve him by e-mail and facsimile is, to say the least, highly suspicious. Jain has therefore failed to satisfy his burden to establish that the entry of the default against him did not result from his culpable conduct.

The other two factors weigh at least slightly in favor of relieving Jain from the entry of the

Title Symantec Corp. v. James Reno, et al.

SCANNED

default. By disclaiming actual knowledge that the software he sold was counterfeit, Jain may have a meritorious defense to at least a portion of the damages Symantec seeks for willful infringement. But see Franchise Holding II, 375 F.3d at 926 ("To justify vacating the default judgment, however, [defendant] had to present specific facts that would constitute a defense. [Defendant] never did this. Instead, it offered the district court only conclusory statements that a dispute existed. A 'mere general denial without facts to support it' is not enough to justify vacating a default or default judgment.") (quoting Madsen v. Bumb, 419 F.2d 4, 6 (9th Cir. 1969)).^{1/} With respect to prejudice, Symantec has not shown that it will suffer "greater harm than simply delaying resolution of the case." TCI Group Life Ins. Plan, 244 F.3d at 701.

The Court finds that Jain's failure to timely respond to the Complaint is solely the result of his culpable conduct. Jain should not be rewarded for his cynical and intentional manipulation of these proceedings. The Court therefore denies Jain's ex parte application for relief from entry of default. The Court shall address the merits of Symantec's motion for default judgment in a separate order.

IT IS SO ORDERED.

^{1/} The Court notes that Jain is free to pursue his proposed cross-claim for indemnity in a separate action.

Account Funding

Account Information for 558386

Your Account is Currently Inactive, with a balance of: -(\$4.72)

Once your account has been funded and activated, you will begin receiving traffic to your listings within one hour. New accounts must wait for account review before being activated by client services within 1 to 2 business days.

You are currently on the PrePayment plan.

1) Payment Option

Please select your payment option that best suits your business.

- Directed Traffic will be automatically deducted from your deposit.
- You have complete control over how much you want to spend.

☐ Non-stop plan Keep your account up and running without interruption. Your account will be automatically replenished by this amount when your balance is low with an amount you predetermine.

Charge: \$50.00 each time my account runs out.

Do not exceed \$ Please Select per month.

☒ Pre-payment Just looking to get your account back up and running? Simply select the amount you want to spend. When your account is depleted, your keyword listings, instant responses and access to the guest requests will be taken offline until you add money to your account. We will notify you when your account gets low.

Charge: Select

*You must select a specific dollar value to charge when funding your account. If you are only modifying your email alert status below, you do not need to select a dollar value from the "Charge" pull-down box.

Send Email Alert When Balance Goes Below: No Alert

Please Press Submit For Changes To Take Effect.

Credit Card Information

* All Credit Card Charges Will Appear On Your Statement As AdOn Network Account - myGeek.

Ryan,

Yes the wire is coming from the bank I mentioned (15k). It should be there Friday morning at the latest, usually it only takes a day or two.

Yes I suppose we should put \$3k additional to cognac5.

Also I will send another \$15k as I mentioned tomorrow, but I believe it will not go out until Monday.

Thanks,
Kristy

Subject: Re: Winfixer issue

Geoff,

Thanks for the email. We seem to have had this issue a few times lately with various locations. Sometimes it seems the ISP caches an ad from another source and it displays it for a day or two before the DNS refreshes. We had this problem with some international locations as well. Do you have any information as to where this may be happening (city or state wise, or in some country)? I think it may be related to some of the session IDs the programmers use. I will try to get the team to research it ASAP. I am in France right now and it is working fine here. I understand their reason to temporarily suspend it of course. I'll work on possibly getting another page to work in the meantime with them. Unfortunately I'm not sure if I'll be able to get a resolution until Monday, they are often difficult to contact over the weekend.

Thanks
Kristy

Subject: Winfixer issue

Kristy,

Good afternoon! We are seeing something odd with winfixer ads and was hoping you could help so we can get the traffic volume back up. One of our distribution points brought to our attention that we are seeing your links spawn the prompts to download and ext pop to get the user to download...however inside our office we see the ad correctly for this link.

I sent the link to several people outside our offices who are seeing it with the several prompts as the distribution partner mentioned.

Can you let me know what is potentially going on here and how we can get the download to be consistent to only be downloaded from the second page? The partner has no problem with winfixer ads, just has issue with the method of delivery and user complaints on his end. He has blocked winfixer until this is resolved - which is why the volume suddenly dropped. Any help would be great!

Here is the link we used and screenshots.

<http://www.winfixer.com/pages/scanner/index.php?aid=mgwfllid=comp=3ax=0>

When I clicked this one, it took me to my browser window, and then this popped up (see attachment 'Link 1').

When I clicked 'cancel', it took me to this site (see attachment 'Link 1 Cancel').

Geoff,

I don't think anything was done at all to the accounts, I wasn't notified about anything. I've never even seen a popup that looks like that in any stuff I have done. Will check into it. It is the same thing on both? Would be a bit weird?

Thanks,
Kristy

Subject: FW: Preliminary Creatives with Active X

Hey Robert -

Have been getting lots of complaints about activex registry ads coming through. Can you check if these are coming from you?

Have had to shut down a lot of volume while we get them removed.

Thanks,

Mike

We are getting Active-X from these pops. The following creatives tried to initiate program installs:

All of which loaded the following web pages:

http://www.errorprotector.com/free/soft2.php?aft=mger1_in2_exitlft=search

http://drivecleaner.com/.freeware/download2.php?ad=lcdm_us_en_exitlink=internetaff=

Which then initiates the following download:

<http://bin.errorprotector.com/Install-Errorprotector-Free.exe>

<http://files.drivecleaner.com/installdrivecleanerstart.exe>

Also, this one prompted a Trojan Download:

Mike

Robert is gone for the day -- winfixer is a RON advertiser. Robert can provide some input in the morning to check the feed and make sure keywords are working properly.

I'll also follow-up with him now and ask him to look at it if possible to look at it tonight.

best

chad

Subject: RE: partner id URL

Mike,

If you want to display the result directly (i.e. not receive back an XML result), use a URL in the following form:

[http://url.cpvfeed.com/cpv.jsp?p=110276url=http://www.orbitz.comcontext=\[Page Title Text here\]](http://url.cpvfeed.com/cpv.jsp?p=110276url=http://www.orbitz.comcontext=[Page Title Text here])

That has your partner ID 110276 in it. Just replace the URL with the URL the client is viewing and put the page's title text in the context parameter (if available).

Let me know if you have any questions.

Thanks,

Robert

Subject: RE: partner id URL

Mike,

I took a look at the feed and did see some other ads in the rotations - T mobile, registry cleaner, and passion were a few.

By the 'test link' are you meaning the one in the spec or the one down farther in this email string? I know the URL with the orbitz URL in it is returning the winfixer ad every time - indicating that we don't have any other coverage for that right now.

As Chad mentioned, Winfixer is doing a couple different buys in our network. One is targeted on a wide range of keywords, and the other is for RON. Therefore, they can end up being displayed a lot depending on the keywords found and our current coverage. Late in the day will see more as well due to daily caps.

We can block that advertiser from your feed. I'll ask our Advertiser Services group to do that in the morning. What we've done for one other traffic partner was to cap a certain amount of winfixer ads in their traffic per day (e.g. we started out around \$400 per day cap and are inching it up to find a good level at which to run it in that traffic). That could reduce the frequency/aggressive nature of it, if that would address your concerns. Let me know if you'd like to consider doing that.

I'll confirm with you in the morning when it's been turned off.

Thanks,

Robert

Geoff,

Also something to consider is that many sources who don't want to run antivirus, etc is because they are Spyware/Adware companies. We are 100% able to keep their product OUT of the database if they are willing to run the advertisements. You might also consider presenting that.. I can do it with all the software sources we run.

-Kristy

On 9/1/06 5:41 PM, "Geoff Gieron" <geoff@adonnetwork.com> wrote:

Kristy,

We do believe that this is the case and we are going to get you back into the source we closed down first thing next week once the traffic source parses out the sources that were ok with those ads and places the ones that do not want spyware removal, registry cleaner, anti-virus ads running on their traffic.

Thank you for being so responsive and know that Ryan and I are big advocates of yours in any situation like this.

Importance: High

Interesting and unfortunate as I know we alone have spent well over a million dollars with your company. Will your company be doing any transitioning of deals to networks that do wish to continue the relationships with software? You are the only the second company ever we have encountered (we have some 500 advertising deals) that has terminated software entirely. The other being Bestoffers. Might be of interest to some of your other publishers to continue such relationships.. Let me know if you guys have any ideas on transitioning the deals directly to them.

Thanks,
Kristy

92% OF HOME PCS ARE INFECTED!

With Spyware that can't be detected by your Antivirus

No one is immune! Recent studies reveal 92% of computers with an Internet connection to be infected! Commercial websites, "free" software and marketing companies are massively distributing dangerous Spyware that put you at risk.

Why choose AdvancedCleaner?

AdvancedCleaner starts functioning upon installation; it immediately detects compromising contents/cookies and removes them. This is the best solution to erase all evidence stored in your PC. Its features enable you to work safely and without worrying about your reputation. Also, you can schedule regular scans to clean your computer as often as needed. **AdvancedCleaner** is easily customizable. Choose this software for the best cleaning and protection.

Features

- **Thoroughly cleans** all your registries, removes compromising evidence.
- **Protects your reputation** and privacy no matter what your Internet activities.
- **Detects and hides** adult material, compromising content and cookies
- **Cleans** all history records and logs

Perfect Organism

11-15-2006, 05:15 PM

...to some dodgy 'Internet Security' site. Doesn't seem to be anything on my machine which could be responsible, so it looks like it might be a problem with one of the ads on RPGnet.

I seem to recall something similar a few weeks ago, but I thought it had been dealt with.

Mikeythorn

11-15-2006, 05:50 PM

Ditto. I just got redirected when I clicked on one of the "Hot Topic" threads.

eyeballstew

11-15-2006, 06:08 PM

Me too.

Snowblind

11-15-2006, 06:18 PM

I am Spartacus.

I mean "me, too."

Cessna

11-15-2006, 06:30 PM

I'm not getting this, and I just went to about a dozen threads in Hot Topic.

What browser are you using? Try logging out/clearing cookies/etc?

Mikeythorn

11-15-2006, 06:33 PM

I'm using IE at work with pretty heavy duty security attached. It only happened to me that once and I haven't experienced it again. I have logged out and cleared my cookies and will let you know if it happens again.

Mandrion

11-15-2006, 07:14 PM

Just had the same thing happen to me. Firefox 1.5.0.8. The Site was called "SystemsDoctor" or something like that and wanted to conduct a "systems scan". When I tried to close the window, a popup warned me that the "systems scan" was not completed, and when I clicked on cancel it informed me that it would now conduct a systems scan, with only an "OK" option this time. I didn't find out what happened next because I then ended the whole thing via Ctrl-Alt-Del...

pedr

11-15-2006, 07:16 PM

Ditto, on Firefox 1.5.0.8. I used <back> to try to get away from the odd page, got the pop-up box and canceled it using the red X, rather than the cancel button. That worked...

Although the first time my whole Firefox window then decided to resize to only a small box in the corner of the screen.

Burgonet

11-15-2006, 07:43 PM

I did get an attempt to redirect my browser (Firefox 1.something) but I've got it set up to stop such attempts.

Attachment KK

Clearing out my cache, cookies et al fixed the problem, only had this re-direct attempt happen once. Never saw where exactly the re-direct was going per se, mainly as I'd not the inclination to check the re-direct URL/location.

Wasn't sure if it was a user (me) issue or something with the larger forums per se but thought I'd mention it here.

Illegible Smudge

11-15-2006, 07:55 PM

I got the same on Firefox 2.0.

Jay

11-15-2006, 08:03 PM

Using 2.0, and nothing. No redirect at all.

MonsterMash

11-15-2006, 08:11 PM

Just had the same thing happen to me. Firefox 1.5.0.8. The Site was called "SystemsDoctor" or something like that and wanted to conduct a "systems scan". When I tried to close the window, a popup warned me that the "systems scan" was not completed, and when I clicked on cancel it informed me that it would now conduct a systems scan, with only an "OK" option this time. I didn't find out what happened next because I then ended the whole thing via Ctrl-Alt-Del...

Same thing happend to me too. Same browser, Win XP home. Just now run AdAware and SpyWare blaster before flushing history and cache. Doesn't seem to be reoccurring.

Lux

11-15-2006, 11:23 PM

Same thing just happened to me in Tangency. Using IE.

:confused:

Patrick O'Duffy

11-15-2006, 11:25 PM

This has happened to me twice today, and to two different sites. The first was the 'SystemDoctor' site others have reported; that happened about 7 hours ago at work, running IE (I don't know what version).

The second time happened about 1 minute ago (this time using Firefox 2.0), again in Tangency, but to a different site with a similar setup - a popup checkbox saying it had to scan my drive/clear my cache to remove evidence I'd visited adult sites. No matter my response, it started fiddling away at something. Here's the URL:

[http://www.drivecleaner.com/.freeware/index.php?p=37&a=1&j=0&pp=0&w=0&ex=1&ap=0&mpt=\[CACHEBUSTER\]&z=11&link=keyin&ad=areweill_au_en_ed1&aff=](http://www.drivecleaner.com/.freeware/index.php?p=37&a=1&j=0&pp=0&w=0&ex=1&ap=0&mpt=[CACHEBUSTER]&z=11&link=keyin&ad=areweill_au_en_ed1&aff=)

Kinda fucked up.

Hafwit

11-16-2006, 12:57 AM

That happened to me as well just now.

uncle_wilf

11-16-2006, 02:03 AM

Just had it. Using Firefox 2 and Windows 2000.

harkon

11-16-2006, 03:13 AM

I'm not getting it, using FF 2.0 running AdBlock Advanced and set to appear offline. I turned off the block I had

Attachment KK

Page 106

on Java script from googlesyndication and I didn't notice a change.

Borogove

11-16-2006, 05:42 AM

I got it earlier, using firefox 1.something and OS X 10.4.

DjtHeutii

11-16-2006, 06:54 AM

I've had it happen to me a couple of times before I set my firewall settings way high.

Edit: I use Firefox

Foyle

11-16-2006, 07:32 AM

Has just happened to me as well using Firefox 1.0.4

florin

11-16-2006, 07:46 AM

I use Firefox 2.0, and I haven't had it happen on any of the three machines I use. Two are Windows XP and one is Ubuntu. I can't imagine it's RPG.net fault if only some of us are getting it.

Has anyone with a Mac or *nix had it happen yet? Edit: Looks like someone with OSX has had it happen.

Heronymus

11-16-2006, 07:53 AM

I use Firefox 2.0, and I haven't had it happen on any of the three machines I use. Two are Windows XP and one is Ubuntu. I can't imagine it's RPG.net fault if only some of us are getting it.

Has anyone with a Mac or *nix had it happen yet? Edit: Looks like someone with OSX has had it happen.

I would guess it's something to do with the member ad settings, maybe? I know nothing about the tech, but could it be a hijack from a malicious ad, and we're not seeing it because the ads are turned off for us as members?

Illegible Smudge

11-16-2006, 08:14 AM

Well, Foyle didn't get it either, but maybe he has ads turned on. The fact that the guy with Adblock on didn't get it might also support your theory.

Hafwit

11-16-2006, 08:20 AM

Oops, I use Firefox and Xandros (Linux).

Foyle

11-16-2006, 08:26 AM

Well, Foyle didn't get it either, but maybe he has ads turned on. The fact that the guy with Adblock on didn't get it might also support your theory.

I did indeed have adds turned on as they haven't really bothered me. But still pretty shitty to be re-directed without clicking on anything other than a thread title. Have turned them off now

Kiero

11-16-2006, 08:33 AM

I've had it happen earlier, using Firefox 1.5.0.8

Lolth

11-16-2006, 11:34 AM

Attachment KK

I just had the same thing happen.

[http://www.amaena.com/securityworm5/?ax=1&ex=1&mpt=\[CACHEBUSTER\]&aid=areweill](http://www.amaena.com/securityworm5/?ax=1&ex=1&mpt=[CACHEBUSTER]&aid=areweill)

Using Opera 9.02, Windows 2000 Pro.

Thread: <http://forum.rpg.net/showthread.php?t=296856> (though this alone won't help to nail it down, I'm sure; if Shannon greps server log with my IP and this thread's URL, I'm pretty certain he might be able to find which ad was guilty one, depending on how httpd's logs are set up.)

Iozz-Sothoth

11-16-2006, 01:22 PM

Happened to me twice today (Internet Explorer, Win XP), both times in TO. First time downloaded some spyware which my scanner caught [1], second time hasn't, as far as the full scan can tell.

[1] If the scanner caught it pretty much immediately, how worried to I have to be about my security? (That is, will it have sent any tasty looking data to persons unknown?)

Kester Pelagius

11-16-2006, 01:23 PM

While this hasn't happened to me, as yet, I am curious about something.

Did anyone notice if any keyword were lit up with that double underline green text?

I have noticed that, from time to time, subject lines will suddenly have a few keywords turn green with a link. Once, as I was clicking, a dialogue box popped up then disappeared (but no redirect I observed).

Is it possible this is what happened/is the culprit?

Iozz-Sothoth

11-16-2006, 01:38 PM

WTF? My firewall was off. That probably explains the redirect, but precisely when did I do something that stupid (and have I been indadvertantly surfing the Net unprotected for the last six months...)

Godfather Punk

11-16-2006, 02:18 PM

For the record a 'Me too' just a minute ago.

Firefox 1.5

I managed to close the tab after some "ESC" hitting to get rid of the pop-up.

Bicorn

11-16-2006, 02:31 PM

Happened to me as well.

Firefox 1.5.0.8, Windows XP, and I have Adblock.

Killed the popup with the 'x' instead of hitting any of the buttons and then used the back button to get back here.

ShannonA

11-16-2006, 02:41 PM

A few people reported the actual URL, which is what I needed. Just reporting the fact lets me know something is up, but doesn't help resolve it. It's been passed on.

Mandrion

11-16-2006, 05:54 PM

Just had the same thing happen again, this time I got redirected to

[www.amaena.com/securityworm81/?p=3&ax=1&ex=1&h=10&mpt=\[CACHEBUSTER\]&aid=areweill](http://www.amaena.com/securityworm81/?p=3&ax=1&ex=1&h=10&mpt=[CACHEBUSTER]&aid=areweill)

(<http://forum.rpg.net>)

P.S.: How do I stop this from becoming an automatic link? I think I've worked around it now, but somehow I would prefer a more elegant solution...

Patrick O'Duffy

11-16-2006, 07:52 PM

Another instance, this time using IE on my office PC, while trying to read the 'Neocon Plan' thread in Hot Topic. URL was:

[http://www.amaena.com/securityworm81/?p=3&ax=1&ex=1&h=10&mpt=\[CACHEBUSTER\]&aid=areweill](http://www.amaena.com/securityworm81/?p=3&ax=1&ex=1&h=10&mpt=[CACHEBUSTER]&aid=areweill)

Saru Sponge

11-16-2006, 08:01 PM

Another instance, this time using IE on my office PC, while trying to read the 'Neocon Plan' thread in Hot Topic. URL was:

[http://www.amaena.com/securityworm81/?p=3&ax=1&ex=1&h=10&mpt=\[CACHEBUSTER\]&aid=areweill](http://www.amaena.com/securityworm81/?p=3&ax=1&ex=1&h=10&mpt=[CACHEBUSTER]&aid=areweill)

I just got this too.

Ken Finlayson

11-16-2006, 09:17 PM

Add my voice to the choir (Firefox 1.0.4, Mac OS X 10.4.5, reading the thread with Mark Twain's joking reform of the English language)

[http://www.amaena.com/securityworm81/?p=3&ax=1&ex=1&h=10&mpt=\[CACHEBUSTER\]&aid=areweill](http://www.amaena.com/securityworm81/?p=3&ax=1&ex=1&h=10&mpt=[CACHEBUSTER]&aid=areweill)

Hodden

11-16-2006, 10:51 PM

Happened to me a few minutes ago, I was redirected to:

[http://www.amaena.com/securityworm81/?p=3&ax=1&ex=1&h=10&mpt=\[CACHEBUSTER\]&aid=areweill](http://www.amaena.com/securityworm81/?p=3&ax=1&ex=1&h=10&mpt=[CACHEBUSTER]&aid=areweill)

And then Norton stepped in and shut everything down, telling me that a virus had been detected.

Pope Nag

11-16-2006, 11:53 PM

And another one. I got redirected to http://nl.winantivirus.com/download/2006/index.php?aid=areweill_ed2&lid=keyin&ex=1&ax=1

so NOT the amaena one. However, I'm dutch, so the nl.winantivirus bit seems to indicate it picks a destination according to your location. That, or we have more than one offender now.

I'm on a mac, system 10.3.9, using Firefox 1.5.0.7.

Elizabeth Brooks

11-17-2006, 03:31 AM

I googled for amaena.com and I keep getting hits on the blackworm virus hoax (<http://www.spynomore.com/articles/blackworm-virus-hoax.php>) and references to vundo. (http://wiki.castlecops.com/Vundo_Rootkit_Detection_and_Removal_Procedure)

Just to be clear: The blackworm virus hoax involves stuff claiming that blackworm was detected on your machine - there is something going on that shouldn't be, but it probably isn't blackworm. Vundo is itself a virus.

If I search for "winantivirus" and "amaena" I get a lot of hits that imply that popups related to those sites are also related to worms and such. Check this article (<http://www.pcmag.com/article2/0,1759,1911061,00.asp>) out.

One bit that stood out:

Attachment KK

The Rogue Antispyware page at spywarewarrior.com notes that WinAntiSpyware and WinAntiVirus use aggressive advertising, drive sales using false positive results, and inappropriately collect personal data.

answers.yahoo.com (<http://answers.yahoo.com/question/index?qid=20061102013533AAk30KD>) also mentions this stuff, specifically referencing amaena.com and drivecleaner.com. I mention this link because it connects both sites.

Symantec's page on drivecleaner: (http://www.symantec.com/smb/security_response/writeup.jsp?docid=2006-062217-0726-99)

DriveCleaner is a security assesment tool which gives exaggerated reports of security and privacy risks on a computer. The program then prompts the user to purchase a registered version of the software in order to remove the reported risks.

I hope this information is of use.

Kiero

Everytime I run a search on a search engine this message pops up. I copied it and pasted it below, but I don't trust it so I won't click downloads that it suggests. This pop up window always has the above link which I posted in the message subject. I ran a virus scan scanned for blackworm and both scans said my PC was clean. How do I stop this window from constantly popping up.

You may be infected by 'Blackworm'! We recommend you DOWNLOAD one of these security software programs to prevent further malware infections

The dangerous 'Blackworm' computer virus activated February 2006 and has started destroying data on computers it has reached. Virus, which has already infected over 1,000,000 computers in several countries, continues to spread rapidly over the Internet.

Attention! Security Center has detected spyware on your PC sending private information and documents to a remote computer. One of the processes (**Win32res.exe**) has just sent this information:

IP address:72.130.11.171Browser:Mozilla/4.0 (compatible; MSIE 6.0; Windows NT 5.1; SV1; .NET CLR 1.0.3705; .NET 1.1.4322; Media Center PC 3.1)Computer OS:Windows XPFull PC control.GainedSent Information:approximately 17 Megabytes Latest Threats

- Blackworm
- Blackmal
- Nyxem
- MyWife
- Kama Sutra

Your current security software is unable to stop this malicious kind of spyware/virus. To clean up your computer and prevent further risk of infection, you should download one of the following security software programs:Software namelinkfree scanusabilityperformanceadvanced featuresratingdaily

updatequality:
yesvery
easy10/10no10/10yes95%

You have spyware. Go to www.javasoftusa.com. Download AdAware. Install it, open it, UPDATE IT, run it. Delete everything that it finds. Note - download the FREE version. Go to www.microsoft.com/athome/security/spyware/software/default.mspx. Download Windows Defender. Install it, open it, UPDATE IT, run it. Delete everything it finds. Start, Run, Msconfig. Click on Startup Tab. Uncheck everything that the site says you can: www.sysinfo.org/startuplist.php. When the computer reboots, check the box that says don't show me this again. If it's X or N, uncheck it.

Rick Click here for

for personalized support

Rick's CES blog, click

CES photos, click here.

Before posting a question, try the Advanced Search on the bottom of the page as your question has probably been asked. Most commonly asked question on DellTalk - "Can I go out and buy cheap memory at a retail store, with a big rebate, and have it work in my Dell?" very, very unlikely. So save your gas or shipping and don't try to buy cheap memory! User Guides to your system, as well as Drivers and Reinstall instructions, are under the Technical Support tab, top left of your screen. To see the systems that I run click here.

I am having this exact same problem. I also ran the FixBmalE removal tool from Symantec today (3/17/06) and it said it didn't find any problems. I'm also having a problem with Adult Friend Finder pop up and a message saying to remove disk when I start up my computer. I ran Hijack this today and here is the log file.
Thanks for any help!

do NOT download neither WinAntiSpyware nor WinAntiVirus

Rather, you should try the FixBmalE removal tool from Symantec (assuming you can still access the Symantec WebSite.... which unfortunately, may be blocked by the malware):

instructions: <http://securityresponse.symantec.com/avcenter/enc/data/w32.blackmai@mmn.removal.tool.html>
actual tool: <http://securityresponse.symantec.com/avcenter/FixBmalE.exe>

Note: If you find that the Symantec website is "blocked" on your "infected" machine, you should try to download the tool onto another machine (a friend's, or one at work?), then transfer it via floppy (it's a tiny file) [or memory stick, or CD-R/W] to the infected machine, then run it on the infected machine.

I ran the FixBmalE removal tool from Symantec and it said that my computer was not infected by the blackmal. However, this annoying window still keeps popping up every now and then and saying that same message. I did everything posted in the above thread as well.

I did exactly what you instructed me to and this thing still pops up every now and then when I open up a new browser window. What to get rid of this thing?

the suggestion to run the Symantec tool was based on your "message" indicating the presence of:

- Blackmal
- Nyxem
- MyWife
- Kama Sutra

all of which are synonymous, and should have been removed by the Blackmal tool. Since that apparently didn't work, the next step be HiJackThis analysis:

Download a self-extracting copy of the latest version of HJT (HiJackThis) (version 1.99.1) from

http://downloads.malwareremoval.com/hijackthis_sfx.exe

Save it to your Desktop.

Double-click on the file `hijackthis_sfx.exe` file, and allow it to self-extract [by clicking on UnZip] into the suggested/default folder: `C:\Program Files\HijackThis`

Use Windows Explorer to navigate your way into this folder, and then double click on HiJackThis.exe

Click on **Do a System Scan and Save a LogFile**

This will automatically open Notepad

Copy the entire file from Notepad: **EDIT/SelectAll, EDIT/Copy**

Then go to the new forum dedicated for HiJack This logs (["NOT" back here](#)), and **PASTE** the results there:

http://forums.us.dell.com/supportforums/board?board.id=si_hijack

Be sure to include a detailed description of any problems/errors/warnings you are encountering.

Hopefully, one of the HJT experts will get to it as quickly as possible.

WARNING: HiJack This is a VERY POWERFUL tool. While it's *completely safe* for you to download, generate, and post your logs (as described above), you should **"NOT"** attempt to do anything else (in particular, do NOT use it to delete/fix any entries) unless you are advised to do so by a forum expert! Improper use of this tool can severely damage your system.

Re: POP UPhttp://www.amaena.com/security.worm2/?aid=am2&lid=search

Scuba,

we've had a lot more experience with Amaena now, and especially, since you've included your HJT log.

please download and run Atribune's VundoFix, per directions here: http://forums.us.dell.com/supportforums/board/message?board.id=s_hjack&message.id=29584

then, update your java (directions in same link) from j2re1.4.2_03 to 1.5.0_06

REPLY here, and let me know if this fixes your problem.

Yep, I found that link right after I posted my message. I followed the directions and so far so good. No pop ups from Amaena
Thank You!

Just thought I'd let you all know, I tried EVERYTHING above, and none of it worked. However, after doing all of that, I found another which recommended "Spyware Doctor" which has a built in Malware remover. I had to pay for it, but it worked 100%, and got rid of other Bugs that were hidden on my computer that I wasn't aware of, even though I run Ad-aware regularly. I highly recommend Spyware Doctor. Since you have to pay for it, you also get a real time monitoring system which blocks things from happening in the future. Regardless if you use it for all its features, it got rid of the "Amaena.com" / WinAntiVirus / WinSpyWare up issue.

Question

Tried everything, even Defender. Running Norton 2007 Internet Security (automatic updates on start-up)

Frequency has deminished but printed most of the screen shots. Most of the pop up comes from a site run by [www.amaena.com/securityworm\(5\)\(81\)\(666\)/.....](http://www.amaena.com/securityworm(5)(81)(666)/.....)
Others, which I think is link ups, [//em.pc-on-internet.com/eas & www.errorprotector.com/free/.....](http://em.pc-on-internet.com/eas&www.errorprotector.com/free/.....)

At wits end. What next. Think this started with a program attachment from Starware Inc & linked to Kontiki Inc.

Please help

Found the resolution to this problem by disabling my Norton Internet Security/Anti Virus & firewall and running removal tool on Kaspersky website. Suggest visit Kaspersky website and search for related items (they update on regular basis) run the removal tool and install latest free trial of Security/Anti Virus from this site.

Hi susand...
I also been attacked by this culprit and I do found the solution to overcome this matter... It is very easy and simple... just download spyterminator from site www.spyterminator.com and it really work and it cleaned it very well.

I have a amaena.com/security worm58. It pops open many windows directing me to a site for Win Antivirus Pro and Win Antispyware. My Norton, Spybot, or Adware SE, programs won't get rid of it. Is there any simple way I can get rid of it. I tried manually typing it in my Norton Blocked antispam list but this didn't do it neither.

Infection detected: W32.ZOTOB.C@mh

Your IP address: **REDACTED**

Your Country: **unitedstates ashburn**

You are using: **MSIE 7.0**

Additional details: **Windows NT 5.1**

Threat status: **SEVERE**

Time of investigation: **May Fri, 05 2007 11:26:40 UTC**

The Solution

WinAntiVirus

Any computer online without a reliable antivirus protection is under a risk of viral infection. WinAntiVirus was developed to stop harmful viruses, spyware, aggressive adware, hijackers, trojans, keyboard loggers, unwanted cookies, and other fast-growing Internet threats.

- Scanning hard drives, removable media and memory
- Checking started programs and documents on the fly
- Enhanced firewall preventing online intrusions
- Preventing identity theft
- Visit [WinAntiVirus official site](#)

Security Update

Common name: TrojanSPM/LX

Threat level: ●●●●●

Damage level: ●●●●●

Distribution level: ●●●●●

Affected platforms: Windows 2003/XP/2000/NT/ME/98/95

First detected on: Wed May 9 10:29:08 EDT 2007

Effects: It accesses the affected PC, steals and damage private information inside. You have to erase the malware immediately!

You have to download one of the latest security solutions to clean up detected virus. Choose a product and click "Download" to proceed.

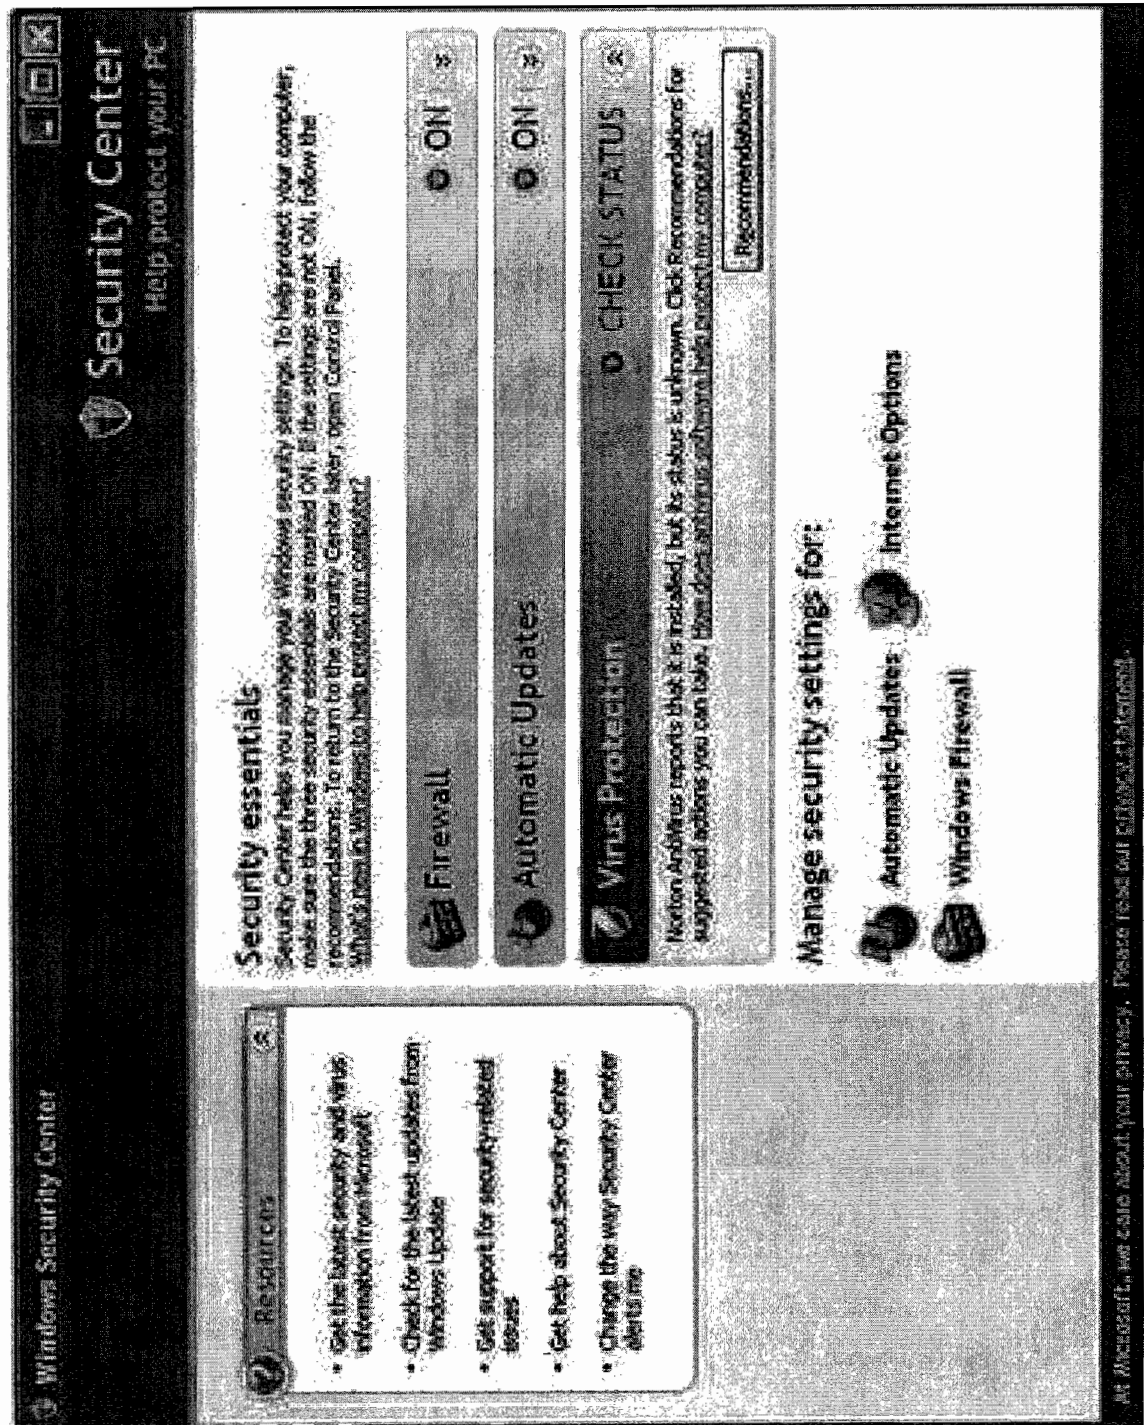

Product	Known Threats	Free scan
WinAntiVirusPro 2007	390402	Yes
WinAntiSpyware	359030	Yes

Spyware Sucks

Real heroes are men who fall and fail and are flawed, but win out in the end because they've stayed true to their ideals and beliefs and commitments - Kevin Costner

Winfixer and ValueClick – an oft appearing association

My regular readers will remember my various articles about the Winfixer infiltration of the AOL and MSN advertising networks that happened not long ago. Winfixer infiltration of Web site advertising (as well as forum and comment spam) continues to be problematic, and one name that keeps on popping up over and over again is **adfarm.mediaplex.com** (Mediaplex is owned by ValueClick). The problem seems to be so endemic that any web site, forum or Web comment that utilises links that redirect to **adfarm.mediaplex.com** are potentially placing their visitors at risk of a Winfixer infection.

Over the past couple of months I have had in-person and telephone conferences with representatives and technical staff at MSN and AOL as a direct result of the Winfixer infiltrations of various advertising networks. They have learned a lot from the events of the past few months, as have I. I don't think any of us realised how widespread the problem was, or just how sophisticated the bad guys were getting, until we started taking a close look.

Mike Burgess and I have been having a close look at **adfarm.mediaplex.com**. I have tried to contact ValueClick regarding the **adfarm.mediaplex.com** problems using their "contact us" page on their Web site, but as of yet have received no response (and those of you that know me well know that a failure to respond is sure to intensify the attention that I pay to a problem advertisement network). I will be contacting them directly via an email address given to me by an associate as soon as this article goes live, and will report on their responses, if any.

Edit 26 April: There has been no response from ValueClick

Edit 27 April: ValueClick have responded to advise they are investigating

Edit 8 May: ValueClick report that they are still investigating

Why is Winfixer bad?

The Winfixer group of products is listed as a "Rogue Security Product" in the latest Microsoft Security Response Report. The Microsoft Security Intelligence Report can be downloaded here: http://download.microsoft.com/download/f/d/a/fda5850e-269f-40a3-9708-c60eb837456f/MS_Security_Report_Jul-Dec06.pdf

Microsoft's definition of "Rogue Security Products" is:

"These products appear under a variety of names and produce a variety of results for the end user, ranging from limited or no detection capability, coupled with a fraudulent request to pay for a "full" version, to outright malicious behavior, such as installing malicious software without the user's consent in order to give the product something to detect. In many cases, the people behind such software would attempt to get the infected individual to pay them for removal of purported infections using fraud and social engineering."

A worrying statistic from the Rogue Security Products table that specifically mentions Winfixer products is that 55% of users who have WinSoftware.WinAntiVirus installed, and 31.3% of users

Case 1:08-cv-03233-RDB Document 3-24 Filed 12/02/08 Page 122 of 170
who have WinSoftware.WinAntiSpyware installed chose to *ignore* the detection, with only 30.6% and 37.6% respectively choosing to remove the software. I can only assume that the victims of these products are choosing to believe that the various Winfixer offerings are legitimate products instead of heeding the warning being given by Windows Defender.

In contrast, 75.7% of Windows Defender users choose to remove the “potentially unwanted software” C2.LOP (aka C2Media, aka Circle Distribution, and the software commonly known as the Messenger Plus! Sponsor Program).

Now, all of us are entitled to earn an income, all of us are entitled to advertise, and companies such as Mediaplex and ValueClick are entitled to offer a service to advertisers. BUT, I believe that a line is crossed when deceit is practiced – when the advertisers that Mediaplex and ValueClick are “enabling” via their services try to automatically download and install their product on to your system (thank heaven for IE’s info bar that stops such things from happening automatically), when an advertisement tries to trick you into thinking that your computer system is having issues or that your privacy is at risk, or when the software being touted falsely reports infections where none exists – companies such as ValueClick and Mediaplex should run, screaming, from such clients. Slowly but surely I’m seeing a move towards forcing advertisers, and those who use their services, to ensure that those they associate and do business with are ethical and above board, as distinct to just making sure that their own actions are ok. In short, saying “but it wasn’t me” and “but I didn’t know” isn’t the end-of-responsibility argument that it used to be.

Winfixer prevalence

Just how pervasive is the spamming, pimping and touting of Winfixer domains? How many adverts are out there pushing people to such sites, and how many potential infectees are there? Well, let’s have a look at the Alexa Traffic Ranking of various Winfixer sites:

Drivecleaner.com:

http://www.alexa.com/data/details/traffic_details?url=www.drivecleaner.com
(rank 587) (570 on 26 April)

Systemdoctor.com:

http://www.alexa.com/data/details/traffic_details?url=www.systemdoctor.com
(ranking 966) (929 on 26 April)

Errorsafe:

http://www.alexa.com/data/details/traffic_details?url=www.errorsafe.com
(ranking 1,001) (990 on 26 April)

Winantivirus:

http://www.alexa.com/data/details/traffic_details?url=www.winantivirus.com
(ranking 1,630) (1,574 on 26 April)

Winantispyware:

http://www.alexa.com/data/details/traffic_details?url=www.winantispyware.com
(rank 4,793) (4,539 on 26 April)

Errorprotector.com:

http://www.alexa.com/data/details/traffic_details?url=www.errorprotector.com
(ranking 7,636) (6,966 on 26 April)

Attachment OO

http://www.alexa.com/data/details/traffic_details?url=www.gomyron.com
(ranking 214,212) (197,535 on 26 April)

By way of comparison with legitimate security products, mcafee.com has a ranking of 932 (954 on 26 April), symantec.com has a ranking of 218 (222 on 26 April), ca.com has a ranking of 3,148 (3,262 on 26 April) and trendmicro.com has a ranking of 2,335 (2,361 on 26 April).

How is ValueClick involved in the spread of Winfixer?

ValueClick owns Mediaplex, and Mediaplex is an oft-spotted contributor to the spread of Winfixer malware.

Just some **adfarm.mediaplex.com** URLs that redirect to Winfixer and Winfixer like sites include:

<http://go.errorsafe.com/MTUwNzE=/2/5590/ax=1/ed=1/ex=1/555/>
redirects to:

Mike Burgess writes about hard-core adult sites with images of underage boys that use **adfarm.mediaplex.com** content

<http://msmvps.com/blogs/hostsnews/archive/2007/04/22/more-on-Winfixer-and-valueclick.aspx>

He also writes about false claims of TRUSTe certification (again with **adfarm.mediaplex.com** content)

[hxxps://secure.drivecleaner.com/payment/?ad=keyin&link=keyin&site=169&product=452&aff=](http://secure.drivecleaner.com/payment/?ad=keyin&link=keyin&site=169&product=452&aff=)

<body onload="setSelected()">

The above is the same exact code as is displayed here:

<http://msmvps.com/blogs/hostsnews/archive/2007/04/23/Winfixer-and-valueclick-in-the-uk.aspx>

Then there is this report by Mike:

<http://msmvps.com/blogs/hostsnews/archive/2007/04/20/are-advertisers-promoting-malware.aspx>

And this:

<http://msmvps.com/blogs/hostsnews/archive/2007/04/21/more-on-Winfixer.aspx>

My sincere hope is that Mediaplex and ValueClick come to the attention of the FTC, and that the FTC takes action, if Mediaplex and ValueClick to not take comprehensive action to clean up their service and make sure that the problems discussed here do not recur in the future.

Do ValueClick enforce their antispam policy?

ValueClick says:

"It is our policy to prohibit the sending of unsolicited or "Spam" e-mail by ValueClick or any of its marketing partners." (cite: <http://www.valueclick.com/privacy.html>)

Hundreds of spam messages have been posted on various forums in contravention of the above policy:

Case 1:08-cv-03233-RDB Document 3-24 Filed 12/02/08 Page 125 of 170
<http://www.google.com/search?q=drivecleaner.com&hl=en&safe=off&start=40&sa=N>
<http://www.google.com/search?q=go.sexprofit.com&hl=en&safe=off&start=10&sa=N>

A typical spam post can be found here:

<http://www.splinecage.com/forums/archive/index.php/t-1550.html>

Every single one of the links in that forum post route thru **adfarm.mediaplex.com**.

My own blog is being hit by hundreds of spam comments every week – in fact, I have 2095 comments awaiting my attention right at this very moment, all of which are marked as spam, and 99% of which are submitted by a very prolific “author” under the pseudonym “...” (yes, I know, the author is a bot – I’m being facetious).

Anyway, all of the comments submitted by author “...” have a myriad different URLs as the author’s Web site, virtually all of which redirect to Winfixer sites via **adfarm.mediaplex.com**. Yes, I could list all of the URLs that I am seeing in my blog comments, and provide definitive proof of **adfarm.mediaplex.com** involvement, but I think this article will prove beyond a doubt that there is big problem at **Mediaplex** even without those specifics.

To give you an idea of just how endemic the problem of **adfarm.mediaplex.com** being used as a conduit for winfixer malware is, check out the list of **adfarm.mediaplex.com** URLs below, all of which redirect to Winfixer, Winfixer related or Winfixer type sites at the time of testing. I noticed as I was working my way through the various **adfarm.mediaplex.com** URLs by changing (for example) 45678 to 45679 then 45680 and so on and so forth, that I was hitting very few “legitimate” Web sites using this test routine, which is very worrying and makes me wonder just how widespread the Winfixer infiltration is at ValueClick. I suspect that if I kept checking, and testing, that I could continue to add to that list, but let’s be honest, I’m already at the stage where I am thinking “enough already - I get it - there’s a big problem here”.

I have already tried the “Contact Us” facility at

<http://www.valueclick.com/about/contact.html> and received NO RESPONSE - not even an acknowledgement that my approach had been received, despite my including this URL - hell, if potential underage porn doesn’t get their attention, what the hell will???
<http://msmvps.com/blogs/spywaresucks/archive/2007/04/22/857830.aspx>

It will be very interesting to see what reaction, if any, we get from Mediaplex and ValueClick when they see this article. You see, they need to do more than get rid of the rogue content that is already there; they have to stop future occurrences and reassure everybody who uses their content that Mediaplex and ValueClick can be trusted to stay clean going forward, but here is the kicker... will they want to, especially if Winfixer and Winfixer type clients are a major part of any sector of their income stream?

re: Winfixer and ValueClick – an oft-appearing association

Sandi, That's a brilliant breakdown of one of the worst offenders out there today. It's common knowledge that you shouldn't click/download/view documents/accept invitations etc from strangers, but some of the tricks these people use are just below the belt at times. Thanks for the tips and info on Winfixer....

re: Winfixer and ValueClick – an oft appearing association

Great work Sandi - but when will they pay you to protect the world? Seriously - how much of this stuff do the vendors and the community expect for free? How much have MS or AOL paid you to continue the fight? I know - NOTHING - NADA - ZIP. You do this out of the goodness of your heart which I know well. Surely - if they really thought it was a worthy cause they would have gotten the problem solved by now! Don't get me wrong - I'm not criticising your work at all - but when will the big guys step up to the plate and take a swing at solving this. You do this out of your best intentions and for free. You should be being paid as a security consultant by MS or AOL given you've saved countless millions from being infected by this crap. Now you've got attorneys reading your blog and potentially using it in court - they get paid - what about you? Keep up the good work Sandi - but hopefully someone from MS or AOL will think about contributing to keeping food on Sandi's table :-)

re: Winfixer and ValueClick – an oft appearing association

Kick ass article Sandy. I'm going to spread it around. Just the other day I couldn't convince someone that ValueClick did deserve to be included in a data base for blocking. This should do it!

Wednesday, April 25, 2007 7:04 PM by JeanInMontana

re: Winfixer and ValueClick – an oft appearing association

NICE JOB. Glad to see someone is out there helping with this crap. I really liked that you posted details and numbers!

Saturday, April 28, 2007 12:54 PM by coz

Valueclick and Winfixer... the association continues

Mike Burgess reports that ValueClick is not cleaning up their act:
msmvps.com/.../hostsnews

Sunday, May 06, 2007 8:11 AM by Spyware Sucks

1. ValueClick and malware - the problem continues 2. The FTC investigates ValueClick

ValueClick seems to be facilitating more than the distribution of malware like Winfixer. Check out Mike's

Saturday, May 19, 2007 12:42 AM by Spyware Sucks

re: Winfixer and ValueClick – an oft appearing association

This article is so very informational. Just yesterday, i happened to get onto an adult dating site and my laptop got hit by spyware, took control over my IE and then all I know is that the names listed in this article - gomyron.com, go.errorprotector.com,

Case 1:08-cv-03233-RDB Document 3-24 Filed 12/02/08 Page 128 of 170
go.privacyprotector.com just started repeatedly popping up on my system and I could'nt do a thing about it. My IE was totally gone and I started getting warning and alarming messages continuously that I have my system has been hit with viruses. The techs had a hard time getting it off the system

I hope this article really is a step forward for someone to take action against valueclick and mediaplex. They sure can make your life miserable

Greetings,

I am having adware problems. I have run spybot lava soft adware, and ewido anti spyware. My browser is not hijacked. some adds that constantly popped up are ...

<http://www.newsalone.com/m1436101080.html>

<http://www.drivecleaner.com/freeware/?p=2...&aid=mgcog4>

Attached is my log file from ewido and Hijack this.

Thanks in advance

Das All-in-One-Paket

KOMPLETTES PROFESSIONELLES SYSTEM: SCHNELLUNG, SCHUTZ UND KONTROLLE: FÜR DIE LÖSUNG VON SOFTWAREFehlern, DIE ALLE COMPUTERPROBLEME BESEITIGT

DiskRetter ist eine benutzerfreundliche und intuitive Software, die dafür sorgt, dass Ihre Laufwerke frei von den unnötigen und gefährlichen Dateien bleiben.

Das Problem

Es gibt viele unnötige Dateien, die auf Ihrer Festplatte ohne Ihr Wissen gespeichert werden. Sie reduzieren den Speicherplatz und verlangsamen das ganze System. Wissen Sie, dass dieses Programm den verlorenen Speicherplatz wiedergewinnen kann?

Die Lösung

DiskRetter gibt den Benutzern die Möglichkeit alle Daten auf Ihren PC's zu kontrollieren. Das Programm löscht alle unnötigen Dateien, verhindert den Datenverlust und bereinigt Ihre Festplatte. Möchten Sie verlässliches Laufen Ihres Systems sichern? Keine Fehler auf Ihrem PC haben? Benutzen Sie DiskRetter, um Ihr System zu verbessern.

Schlüsseleigenschaften

- Repariert Fehler auf der Festplatte**
- Verhindert den Daten- und Archivverlust**
- Repariert beschädigte Dateien auf Ihren Laufwerken**
- Löscht die Spuren Ihrer Internettätigkeit**

SOFORT DOWNLOADEN!

Den PC verbessern

DiskRetter beginnt seine Arbeit sofort nach dem Download und der folgenden Installation. Das Programm DiskRetter scannt Ihre Festplatte nach unnötigen Dateien, ohne Ihnen bei der Arbeit zu stören. Benutzen Sie diese Software, um die gefährlichen Dateien zu löschen, die Ihr System gefährden.

WER BRAUCHT DiskRetter?

DiskRetter wurde für die Benutzer hergestellt, die alle Ressourcen Ihres Computer benutzen möchten. Wenn Sie Ihren PC täglich zu Hause oder bei der Arbeit benutzen, ist die Rolle dieser Software nicht zu überschätzen. Dieses Programm bereinigt Ihre Festplatte, sichert verlässliches Laufen und löscht alle unnötigen Informationen.
